Commenting on the performance Mr. Makrand Appalwar, Chairman & Managing Director, Emmbi Industries Limited said, “Our fungible manufacturing facility, and diversification of states in rural markets really proved to be helpful. Seeing a slowdown in rural markets, certain capacities were diverted into exports. This is, in part, responsible for the quick upturn of the company from Q1 to Q4. In addition, we had worked on diversifying states for pond lining which reduced the risks associated with lockdowns in any one particular state. We are incredibly excited to have delivered a great Q4, and are confident that we will be able to sustain momentum in the coming year.”
