about us:

The last two years have been unprecedented in the history of the planet. Whoever thought that a sub-microscopic particle that was discovered in a wet market in China could bring the entire world to a standstill? Cities deserted, offices empty, factories silent, hospitals overflowing at the seams and practically all of the world's citizens locked up in their homes?

The world soldiered on, a vaccine was created and normalcy seemed to be fast returning. Until it wasn't. As the disease ravaged our planet, humanity hunkered down for what promised to be a long haul, stories of resilience and fights against all odds inspiring it.

But as 2022 dawned, so did our spirits. We realized we could live with the virus and life could get back to normal (whatever that meant).

This edition of our Annual Report then, is dedicated to **The Great Bounce Back**. It features stories of people, companies and indeed, the planet itself, that bounced back from near impossible lows.

It is this spirit that drives us at Emmbi.

Our Story

Emmbi Industries was started in 1994 by first-generation entrepreneurs, Makrand and Rinku Appalwar

At a time when it had become a norm to study and settle abroad, Rinku and Makrand's love for the country made them stay back. Hailing from Chandrapur in Maharashtra, which is a cement-manufacturing hub, Makrand saw an opportunity in manufacturing industrial grade polymer bags. Rinku and Makrand believed that polymers, if used correctly, had the potential to deliver the greatest service to mankind. What began as a small trading enterprise in Makrand's living room, has transformed into India's most valued polymer processing company. One thing that has remained constant, though, is our vision of using polymers for a brighter world. From being the pioneers of recycle FIBCs to creating the world's most affordable water conservation system, we have always used our innovative ideas to make communities happier and brighter.

1994 -1997

1994: Emmbi Polyarns Limited was registered as a Private Limited organization. The seeds to creating a brighter tomorrow were sown.

1994-1997: We completed the construction of Sita- Emmbi's first manufacturing unit.

July 1997: We initiated the first production run at Sita, which was completed on August 2, 1997.

2001 – 2004

2001: Emmbi introduced heat stable packaging, that can withstand temperatures up to 120° C.

2004: Emmbi created Poly-Jute Packaging for Tea for the first time in India.

EVERY

1997 – 1999

1997: We launched our first PWS-based packaging solution for the Consumer Goods market, as a replacement for the, then common, Paper Corrugated Boxes.

1999: Emmbi became India's First ISO 9001 certified company in the woven polymer sector for design & manufacturing!

2004 – 2006

2005: Emmbi initiated its first large-scale expansion, to create a capacity of 6,000 MT Per annum. This was the first in a series of capacity expansions that Emmbi would undertake.

2006: We took our first steps to becoming a global leader, with the production of FIBCs for global clients. We also commissioned Janaki-our second unit.

Brand Pillars

2007 – 2010

2009: Emmbi developed a cattle-safe Canal Liner. While still a niche product, this set the stage for creating world-changing products in the agricultural space, later.

2010: Emmbi was listed on the two major stock exchanges in India – NSE and BSE.

2015 – 2017

2015: We launched our Emmbi Innovation Lab to drive innovations. Over the next 2 years, we applied for 14 patents and our exports topped INR 1 billion.

2016: We entered the agricultural consumer business with the launch of our brand, Avana – focused on putting farmers first through affordable water conservation.

2017: We developed Emmbi CleanTec, a facility for food and pharma-grade manufacturing.

STEP

COUNTS

2011 - 2014

2010-2012: Rampriya and Vaidehi units were constructed. We tripled our capacity to 18,200 MT per annum!

2013: Emmbi pioneered the concept of single-homopolymer manufacturing design to make one of the world's first "Green" FIBCs.

2018 - 2022

2019: We created Jalasanchay Super, the world's first blue pond lining designed to improve farmer income through aquaculture.

2021: We launched 6 new products in the agri-inputs space, moving Avana from a consumer durables co. to becoming a trusted player in small-ticket agri-inputs.

2022: Today, we loom to the next horizon, transforming ourselves into a global business that constantly brightens lives in all the communities we operate in.

Brighter Every Way

Our vision is to create a brighter world for all our stakeholders

Brighter for our Customers:

Whether it is their bright and colorful pattern or legends of the Genie with magical powers, traditional Arabian lamps have held the mystique of bringing good fortune and riches to their owners. At Emmbi, we aim to do the same by thinking differently, which helps us add maximum value to our customers and their business. At Emmbi, we believe that it's not just our products but the buying experience in its totality, that can make a difference to our customers. Which is why, we bring cutting-edge, cross-category knowledge to the table. This, coupled with the best of production techniques, a lean manufacturing philosophy and a near Six-Sigma level of operations go a long way in brightening our customers' business.

Brighter for our Employees:

Thomas Edison's invention has perhaps single-handedly changed the course of many-a-lives, and history itself. The humble table lamp is a symbol of the hard work and toil that millions of working-class individuals put in, in the quest for a better lifestyle. At Emmbi, we do our bit to brighten our employees' lives. We do this through our various Human Resource policies and programmes that encourage independent and creative thinking, an entrepreneurial spirit and active contribution to ideas. For more information, visit our Careers page.

Brighter for our Partners:

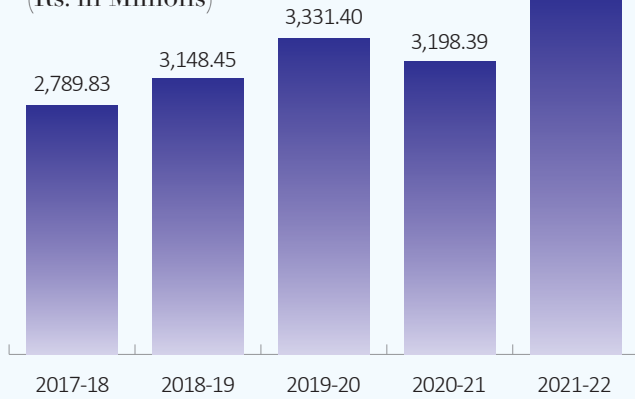

Traditional earthen lamps are used in the annual 'Chopda Pujan' that the Indian business performs, during Diwali. Businessmen pray to the god of wealth, for greater prosperity. On its part, Emmbi helps spread prosperity to our partners with a raft of initiatives – from implementing the most modern ERP systems to exercising total transparency in our dealing and automating our buying processes. Little wonder then, that a majority of the partners we work with – whether national or international – have continued to be our partners for as long as Emmbi has existed.

“ From staring at doom and gloom all around, humanity has emerged stronger, more resilient. It is now time to bounce back. ”

Chairman's Address 2022- Year of Bounce Back

Dear Shareholders,

On behalf of the Board and the Employees of Emmbi, let me warmly welcome you to the 28th Annual General Meeting and once again thank you for being a part of the journey. Fiscal 2022, was the year of reckoning, and many records. We crossed the Rs. 5 bn mark in terms of Revenues, Exports were over Rs. 3 bn, and we recorded the highest profits in the history of Emmbi at Rs. 190 million. When I reflect over the past two financial years- Fiscal '21 was a year of resilience and tempered growth; While Fiscal '22, can be termed as a period of 'bounce-back, as we clocked a whopping growth of around 60% and created a platform for sustainable growth. Our continued investments in R&D for improved polymer technology, human capital, our engineering capabilities, and adaptability have been the drivers in achieving the record Revenues, record EBITDA, and record Profits in the past 28 years.

The Domestic outlook is tempered optimism given uncertainties across the globe, inflation, and consumer's hesitancy to spend; the Global outlook appears muted given the situation in Ukraine, and the spill-over effects of it across Europe. The IMF estimates the Emerging Markets and Developing economies to grow at 4.50%, and the Advance Economies at 2.50% approximately.

Your Company will be taking very cautious approach towards the Capital Expenditure during the period on next three fiscal. We will be depending more on contract manufacturing for the growth till all the dust settles down and there is better clarity of vision for years to come. The route of outsourced contract manufacturing will help us to maintain the growth and will help company to be further asset light. I have always insisted that growth should always be sustainable, and it cannot be at the expense of margins; all operating parameters witnessed a smart turn-around, and I can assure you that your company would continue to grow, without compromising on margins.

International tread ware at best of its level since the beginning of the export by the company. All the buying partners were supportive and were willing to continue business with company at the expanded level. Prolonged relationships with various companies across the world was a key factor to create a cross functional knowledge which helped us to create solutions for most of our customer base. Consistent supply of high quality product in the international market helped us to get better premium over previous years. This resulted in whopping growth of 73% in export during operating year 2021-22. We will continue our efforts to improve further on all parameters such as Price, Quantity and reach to make company more stable and versatile.

Domestic Packaging division also supported whole heartedly with the robust annual growth. We were able to achieve this with the launch of few import substitute products which were in line of government's Aatma Nirbhar Bharat mission, we are sure we will be able to maintain the growth curve upward during this fiscal also.

When everyone was doing well how can Avana be on Low, As always it made its fantastic contribution through both consumer durable and consumer retail divisions of the business. Though there was substantial price pressure during the rising costs in the segment the worthiness of the product and trust of the customer helped us to navigate the trend in the upward direction.

Sustainability in the polymer processing is now of the paramount importance to the global stakeholders in the entire supply chain. This is a pathbreaking year in terms of the Regulations for the Use of Recycled Polymer. UK became the first country to impose a Newly postulated tax on the consumption of the polymer-based packaging. A Special tax called Plastic packaging tax was introduced this year on the packaging material which is produced or imported in UK and includes at least 30% recycled polymer by weight. The implemented tax is recovered at the rate of 200 sterling pound per metric ton. In order to get the exemption from this tax and to make the material produced by Emmbi more sustainable we started a Special range of the products Named Reclaim 30™ this is a Special range where all the products under this are produced using minimum 30% of the recycled resin. This ability to consume post-consumer recycled (PCR) waste will change complete world's focus towards the use of the polymer based products. We are working extensively to develop the front and backward linkage for the supply and consumption of the post-consumer recycled waste.

I once again thank all our stakeholders for the faith entrusted upon us.

Warm Regards,

Makrand Appalwar

Chairman & Managing Director

“ My biggest thrill is when I plan something and it fails.

– Soichiro Honda

Imagine following your dream relentlessly, surmounting failure after failure and finally building a factory and employing 2,000 people. Your dreams finally seem to be coming true. And then, your factory that you so lovingly built, is reduced to rubble by a bomb! This is the story of Soichiro Honda, the founder of the Honda Motor Company and his bounce back from the absolute rock-bottom to the world's most respected automotive engineer:

Born to a blacksmith and a weaver in the village of Komyo, near Hamamatsu, Soichiro had neither the opportunity nor the inclination for formal education. At age 15, Honda saw an advertisement in *Bicycle World* magazine for an automobile servicing company by the name of Tokyo Art Shokai. Although not a recruitment notice, it was attractive enough for Honda to write speculatively pitching for employment.

By 1928, Honda had completed his apprenticeship at Tokyo Art Shokai and had returned home to open a branch in nearby Hamamatsu. During this time, he earned the nickname 'Edison of Hamamatsu' due to his high levels of creativity and innovation.

By 1937, Honda had founded Tokai Seiki to produce piston rings for Toyota. It was a shaky start, with the early output having quality standards success rates as low as 6%. Undeterred, Honda spent the next two years visiting universities and steelmakers across Japan to study manufacturing techniques. He finally perfected them and was able to secure large orders from companies such as Toyota and Nakajima Aircraft. At its peak, his factory employed over 2,000

people. Honda seemed to be on his way. And then, his factory was reduced to rubble amidst Allied bombing during World War II. If that wasn't enough, the Nankai earthquake of 1945 completely wiped it out.

Honda could have walked away, tried his hand at something else. But, no. He started from scratch, selling the remnants of the Hamamatsu plant and using the proceeds to found the Honda Technical Research Institute which dedicated itself to getting the nation mobile again.

His solution? Retrofitting surplus generator parts to bicycles to create 'motorized bicycles'. Soichiro poured himself into the creation of motorized bicycles and relentlessly improved on the design. Using his limited resources he would disassemble and modify the repurposed generator motors to make them run more efficiently. For the next 10 years, the Honda Motor Company would experience several catastrophes that would derail the company from near bankruptcy, lack of distribution, and production issues. Each time Honda would bounce back and continue to innovate production and quality.

He finally got his break in 1958, with the production of the Super Cub – a runaway success. To this day, little has changed in the Super Cub design and it remains in continuous production with over 100 million units produced. Many consider it to be the greatest motorcycle ever produced. In Honda's own words, "Success represents the 1% of your work which results from the 99% that is called failure."

All documents referred to in the Notice will also be available electronically for inspection without any fee by the members from the date of circulation of this Notice upto the date of AGM. Members seeking to inspect such documents can send an email to info@emmbi.com.
10. Members who wish to seek any information with regard to the Financial Statements or any matter to be placed at AGM are requested to write to the Company latest by 3rd September, 2022, through email on info@emmbi.com so as to enable the Company to keep the information ready at the AGM.
11. **BOOK CLOSURE:** The Register of Members and Share Transfer Register of the Company will remain closed from Wednesday, 7th September, 2022 to Tuesday, 13th September, 2022 (Both days inclusive) for determining the name of members for the purpose of AGM and payment of dividend on Equity Shares, if declared at the Meeting.
 12. a) Members holding shares in dematerialized form are requested to intimate changes pertaining to their bank details such as bank account number, name of the bank and branch details, MICR code and IFSC code, mandates, nominations, power of attorney, change of address, change of name, e-mail address, contact numbers, etc, to their depository participant (DP). Changes intimated to the DP will then be automatically reflected in the Company's records which will help the Company and the Company's Registrars and Transfer Agents, Datamatics Business Solutions Limited ("DBSL") (Formerly known as Datamatics Financial Services Limited) to provide efficient and better services.
 - b) Members holding shares in physical form are requested to intimate changes in point (a) above including dividend matters to the Share Transfer Agents Datamatics Business Solutions Limited, Plot No. A-16 and 17, MIDC, Part B Cross Lane, Marol, Andheri (East), Mumbai 400 093, Tel. No. 66712151-56; Fax No. 66712011; e-mail id: investorsqry@datamaticsbpm.com.
 - c) Members holding shares in physical form are requested to consider converting their holdings to dematerialized form to eliminate all risks associated with physical shares and for ease of portfolio management. Members can contact the Company or Datamatics Business Solutions Limited for assistance in this regard.
 - d) In case of joint holders attending the AGM, the Member whose name appears as the first holder in the order of names as per the Register of Members of the Company will be entitled to vote.
 - e) Quote ledger Folio Number/Client ID and DP ID in all their correspondence.
 - f) Members are requested to apply for consolidation of folios, in case their holdings are maintained in multiple folios.

13. **DIVIDEND:** The dividend, as recommended by the Board of Directors, if approved at the Annual General Meeting, would be paid subject to deduction of tax at source, as may be applicable, on or before 12th October, 2022:

- (a) to all the beneficial owners in respect of shares held in dematerialized form as per the data received from National Securities Depository Limited (NSDL) and Central Depository Services (India) Limited (CDSL) as at the close of business hours on Tuesday, 6th September, 2022 and
- (b) to all the members in respect of shares held in physical form at the close of business hours on Tuesday, 6th September, 2022.

SEBI has made it mandatory for all companies to use the bank account details furnished by the Depositories and the bank account details maintained by the Registrar and Transfer Agents for payment of dividend to Members electronically. The Company has extended the facility of electronic credit of dividend directly to the respective bank accounts of the Member(s) through the Electronic Clearing Service (ECS)/National Electronic Clearing Service (NECS)/National Electronic Fund Transfer (NEFT)/Real Time Gross Settlement (RTGS), etc.

Shareholders are requested to register/ update their complete bank details:

- a) with their Depository Participant(s) with whom they maintain their demat accounts if shares are held in dematerialized mode by submitting the requisite documents. The Company or DBSL cannot act on any request received directly from the Members holding shares in demat form for any change of bank particulars. Such changes are to be intimated only to the Depository Participants of the Members. Further, instructions, if any, already given by them in respect of shares held in physical form will not be automatically applicable to shares held in the electronic mode.
- b) Members holding shares in physical form are requested to submit (i) scanned copy of the signed request letter which shall contain shareholder's name, folio number, bank details (Bank account number, Bank and Branch Name and address, IFSC, MICR details), (ii) self-attested copy of the PAN card and (iii) cancelled cheque leaf.

Members wishing to claim dividends of previous years, which remain unclaimed, are requested to correspond with Mr. Kaushal Patvi, Compliance Officer and Company Secretary, at the Company's Corporate Office. Members are requested to note that Dividends not encashed or claimed within seven years from the date of transfer to the Company's unpaid dividend account, will, as per Section 124 of the Companies Act, 2013 be transferred to the Investor Education and Protection Fund (IEPF).

14. **TDS ON DIVIDEND:** Pursuant to the Income-tax Act, 1961, as amended by the Finance Act, 2020, dividend income will be taxable in the hands of Members with effect from 1st April, 2020 and therefore, the Company shall be required to deduct tax at source (TDS) from dividend paid to Members at the prescribed rates. For the prescribed rates for various categories, Members are requested to refer to the Finance Act, 2020 and amendments thereof. Members are requested to update their Permanent Account Number ("PAN") with the Company/Datamatics Business Solutions Limited (in case of shares held in physical mode) and depositories (in case of shares held in demat mode).

For Resident Shareholders, tax shall be deducted at source under Section 194 of the Income-tax Act, 1961 @ 10% on the amount of Dividend declared and paid by the Company during the Financial Year ("FY") 2022- 23 provided valid PAN is provided by the shareholder. If valid PAN is not submitted, TDS would be deducted @ 20% as per Section 206AA of the Income-tax Act, 1961.

However, no TDS shall be deducted on the Dividend payable to a resident Individual if the total dividend to be received during FY 2022-23 does not exceed Rs. 5,000.

Separately, in cases where the shareholder provides declaration in Form 15G (applicable to an individual who is below 60 years) / Form 15H (applicable to an individual above the age of 60 years), no tax at source shall be deducted provided that the eligibility conditions are being met. Needless to say, PAN is mandatory. Members are requested to note that in case their PAN is not registered, the tax will be deducted at a higher rate of 20%.

For Non-resident Shareholders, taxes are required to be withheld in accordance with the provisions of section 195 and other applicable sections of the Income-tax Act, 1961 at the applicable rates in force. As per the relevant provisions of section 195 of the said Act, the withholding tax shall be at the rate of 20% (plus applicable surcharge and cess) on the amount of Dividend payable to them. In case of GDRs and Foreign Portfolio Investors/ Foreign Institutional Investors, the withholding tax shall be as per the rates specified in Section 196C and 196D of the Act respectively, plus applicable surcharge and cess on the amount of Dividend payable to them.

However, as per Section 90 read with Section 195 of the Income-tax Act, the non-resident shareholder has the option to be governed by the provisions of the Double Tax Avoidance Agreement ("DTAA") between India and the country of tax residence of the shareholder, if they are more beneficial to them. For this purpose, i.e. to avail the Tax Treaty benefits, the non-resident shareholder will have to provide the following:

- Self-attested true copy of Tax Residency Certificate ("TRC") obtained from the tax/revenue authorities of the country of which the shareholder is resident for the Financial Year 2022-23;
- Self-declaration in Form 10F;
- Self-attested true copy of the PAN Card if allotted by the Indian Income Tax authorities;
- Self-declaration in the format prescribed by the Company, certifying the following points:
 - i. Shareholder is and will continue to remain a tax resident of the country of its residence during the Financial Year 2022-23;
 - ii. Shareholder is eligible to claim the beneficial DTAA rate for the purposes of tax withholding on dividend declared by the Company;
 - iii. Shareholder has no reason to believe that its claim for the benefits of the DTAA is impaired in any manner;

- iv. Shareholder does not have a taxable presence or a Permanent Establishment (“PE”) in India during the Financial Year 2022- 23. In any case, the amounts paid/payable to the Shareholder are not attributable or effectively connected to the PE or fixed base, if any, which may have got constituted otherwise;
 - v. Shareholder is the ultimate beneficial owner of its shareholding in the Company and dividend receivable from the Company; and
 - vi. Non-resident shareholder is satisfying the Principle Purpose Test as per the respective tax treaty effective 1st April, 2020 (if applicable).
- Any other documents as prescribed under the IT Act for lower withholding of taxes if applicable, duly attested by the Member.

Please note that the Company is not obligated to apply the beneficial DTAA rates at the time of tax deduction/withholding on dividend amounts. Application of beneficial DTAA rate shall depend upon the completeness and satisfactory review by the Company, of the documents submitted by the Non-Resident shareholder.

Members may submit the aforementioned documents at Datamatics Business Solutions Limited, Address: Plot No. A-16 and 17, MIDC, Part B Cross Lane, Marol, Andheri (East), Mumbai 400 093, Tel. No. 66712151-56; Fax No. 66712011; Email: investorsqry@datamaticsbpm.com on or before 3rd September, 2022 in order to enable the Company to determine and deduct appropriate tax. No communication on the tax determination / deduction shall be entertained post 3rd September, 2022.

The Company will issue soft copy of the TDS certificate to its shareholders through email registered with the Company / Datamatics Business Solutions Limited post payment of the dividend. Shareholders will be able to download the TDS certificate from the Income Tax Department’s website <https://incometaxindiaefiling.gov.in> (refer to Form 26AS). Application of TDS rate is subject to necessary verification by the Company of the shareholder details as available in Register of Members as on the Record Date, and other documents available with the Company /Datamatics Business Solutions Limited.

In the event of any income tax demand (including interest, penalty, etc.) arising from any misrepresentation, inaccuracy, incompleteness or omission of information provided by the Member/s, such Member/s will be responsible to indemnify the Company and also, provide the Company with all information / documents and co-operation in any appellate proceedings.

This Communication is not exhaustive and does not purport to be a complete analysis or listing of all potential tax consequences in the matter of dividend payment. Shareholders should consult their tax advisors for requisite action to be taken by them.

15. **IEPF:** Under the Act, dividends that are unclaimed/ unpaid for a period of seven years are required to be transferred to the Investor Education and Protection Fund (“IEPF”) established by the Central Government. Details of dividends so far transferred to the IEPF Authority are available on the website of IEPF Authority and the same can be accessed through the link www.iepf.gov.in.

Pursuant to the provisions of Investor Education and Protection Fund Authority (Accounting, Audit, Transfer and Refund) Rules, 2016 (“IEPF Rules”), the Company has uploaded the details of unpaid and unclaimed amounts lying with the Company as on 31st March, 2022 on the website of the Company at www.emmbi.com and also on the website of the MCA at www.iepf.gov.in. Members are requested to note that, pursuant to the provisions of section 124 of the Act read with IEPF Rules, all shares on which dividend has not been paid or claimed for seven consecutive years or more shall be transferred to IEPF Authority as notified by the MCA.

In accordance with the aforesaid IEPF Rules, the Company has sent individual communication to all Members whose shares are due for transfer to the IEPF Authority and whose email IDs are available, informing them to claim their unclaimed/unpaid dividend before due date to avoid such transfer of shares to IEPF Authority and has also published notice in this regard in Newspapers.

Members whose unclaimed dividends/shares are/will be transferred to the IEPF Authority can claim the same by making an online application to the IEPF Authority in web Form No. IEPF-5 by following the refund procedure as detailed on the website of IEPF Authority <http://www.iepf.gov.in/IEPF/refund.html>.

16. **TRANSFER OF SHARES PERMITTED IN DEMAT FORM ONLY:** As per Regulation 40 of the Listing Regulations, as amended, securities of listed companies can be transferred only in dematerialised form with effect from 1st April, 2019, except in case of transmission or transposition of securities. In view of the above and to eliminate risk associated with physical shares and to avail various benefits of dematerialisation, Members are advised to dematerialise their shares held in physical form.

Members are accordingly requested to get in touch with any Depository Participant having registration with SEBI to open a Demat account. Members may also visit web site of depositories viz. National Securities Depository Limited viz. <https://nssl.co.in/faqs/fag.php> or Central Depository Services (India) Limited viz. <https://www.cdslindia.com/investors/open-demat.html> for further understanding of the demat procedure.

17. The Securities and Exchange Board of India (SEBI) has mandated the submission of Permanent Account Number (PAN) by every participant in securities market. Members holding shares in electronic form are, therefore, requested to submit their PAN to their Depository Participants with whom they are maintaining their demat accounts. Members holding shares in physical form can submit their PAN to the Company / Datamatics Business Solutions Limited.
18. **Members who have not registered their e-mail addresses so far are requested to register their e-mail address for receiving all communication including Annual Report, Notices, etc. from the Company electronically. Members holding shares in electronic mode are requested to ensure to keep their email addresses updated with the Depository Participants. Members holding shares in physical mode are also requested to update their email addresses by writing to the Registrar and Transfer Agent of the Company quoting their folio number(s).**

19. The Board has appointed Mr. Sanjay Dholakia, Practising Company Secretary, Membership No. FCS 2655 & CP 1798 as the Scrutinizer to scrutinise the remote e-voting in a fair and transparent manner and to count the votes casted in favour or against the resolutions proposed from item No. 1 to 7 of the Notice as mentioned hereinabove and to comply with the provisions of Section 108 of the Companies Act, 2013. He will submit his report within 48 hours from the date of conclusion of AGM to the Chairman of the Company and the same will be uploaded on the website of the Company.

Krishnan as an Independent Director on 16th May, 2022 in terms of Regulations 17 of the SEBI (Listing Obligations and Disclosure Requirements), Regulations, 2015 ("Listing Regulations"), Sections 149, 150, 152, 160, Schedule IV and other applicable provisions, if any, of the Act read with the Companies (Appointment and Qualification of Directors) Rules, 2014 (including any statutory amendment(s) or modification(s) thereto or enactment(s) or re-enactment(s) thereof for the time being in force), to hold office for a second consecutive term of 2 (two) years from 31st March, 2023 to 30th March, 2025, not liable to retire by rotation, subject to the approval of the Members. Accordingly, it is proposed to re-appoint him as an Independent Director of the Company.

DECLARATION BY INDEPENDENT DIRECTORS

The Company has received declarations from all the Independent Directors of the Company confirming that they meet the criteria of independence and that he is not aware of any circumstance or situation, which exist or may be reasonably anticipated, that could impair or impact his ability to discharge his duties with an objective, independent judgment and without any external influence as prescribed both under the Companies Act, 2013 and SEBI (Listing Obligations

and Disclosure Requirements) Regulations, 2015. The Board is of the opinion that the Independent Directors of the Company hold highest standards of integrity and possess requisite expertise and experience required to fulfill their duties as Independent Directors.

In terms of Section 150 of the Companies Act, 2013 read with Rule 6 of the Companies (Appointment and Qualification of Directors) Rules, 2014, Independent Directors of the Company have confirmed that they have registered themselves with the databank maintained by The Indian Institute of Corporate Affairs, Manesar ('IICA'). The Independent Directors are also required to undertake online proficiency self-assessment test conducted by the IICA within a period of 1 (one) year from the date of inclusion of their names in the data bank, unless they meet the criteria specified for exemption. As per Companies (Appointment and Qualification of Directors) Fifth Amendment Rules, 2020 dated 18th December, 2020, all the Independent Directors of the Company are exempted from undertaking the online proficiency self-assessment.

PERFORMANCE EVALUATION

The Company has devised a Policy for performance evaluation of the Board, Committees and other individual Directors (including Independent Directors) which include criteria for performance evaluation of Non-executive Directors and Executive Directors. Pursuant to the provisions of the Companies Act, 2013, and the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, the Board has carried out an annual evaluation of its own performance and that of its Committees as well as performance of the Directors individually. Feedback was sought by way of a structured questionnaire covering various aspects of the Board's functioning such as adequacy of the composition of the Board and its Committees, Board culture, execution and performance of specific duties, obligations and governance and the evaluation was carried out based on responses received from the Directors.

The performance evaluation of the Non- Executive & Independent Directors is done by the Board annually. The performance evaluation of the Chairman & Managing Director, Executive Director and CFO is carried out by the Independent Directors annually. The performance evaluation of the Board is done annually by the entire Board. The Board of Directors expressed their satisfaction with the entire evaluation procedure. The Non-Executive & Independent Directors fulfilled the criteria of their independence from the management. Provided that in the evaluation, the directors who were subject to evaluation did not participate.

FAMILIARISATION PROGRAMME FOR DIRECTORS

The Members of the Board of the Company are afforded many opportunities to familiarise themselves with the Company, its Management and its operations. The Directors are provided with all the documents to enable them to have a better understanding of the Company, its various operations and the industry in which it operates.

Cute. Cuddly... and just back from the brink of extinction.

Native to the mountain forests of southwest China, the giant panda is one of the most beloved animals in the world. Their distinctive coloring, and the black patches around the eyes are what give giant pandas their cute and cuddly look. Perhaps that is one of the reasons why China as a country has been using Pandas to forge political friendships in the world, since the 1950s. Beneficiaries of this “Panda Diplomacy” where pandas were offered as diplomatic gifts include the USA (1972), France (1973), Japan (1972), and the UK (1972). By 1984, however, pandas were no longer given as gifts. Instead, China began to offer pandas to other nations only on 10-year loans, under terms including a fee of up to US\$1,000,000 per year and a provision that any cubs born during the loan are the property of China. The annual fee of 1 million dollars is utilized for conservation efforts.

In fact, these cute and cuddly bears have been leading characters in movies (The Kung Fu Panda franchise) and have even inspired watch dials. The dial of the iconic Breitling Navitimer watch is lovingly referred to by enthusiasts as a “Panda Dial”.

But the sad fact is that this entire species almost became extinct in the recent past. As a result of farming and deforestation, the panda population was gradually driven out of the lowland areas where it first lived. Giant pandas have also been the target of poaching. Starting in the 1930s, foreigners were unable to poach giant pandas in China because of the Second Sino-Japanese War and the Chinese Civil War; but pandas remained a source of soft

furs for the locals. The population boom in China after 1949 created stress on the pandas' habitat and the subsequent famines led to the increased hunting of wildlife, including pandas. The result? By the 1980s, there were as few as 1,114 pandas living in China. In 2008, the World Wildlife Fund put the giant panda on its “Red List” of threatened species. Ironic, considering that the mascot of the WWF is a giant panda.

But these cuddly bears bounced back, and how! Being on the red list sent alarm bells ringing around the world and the Chinese government, along with organizations like WWF, began a concerted effort to save the species. Central to this effort was conserving bamboo forests, since bamboo makes up about 99% of their diet. Along with that, there was a network of Panda reserves that were established. China today has over 60 panda reserves. China also experimented with breeding giant pandas in captivity through artificial insemination. These pandas however, couldn't survive when they were introduced into the wild. The sustained effort over 3 decades however, paid off. By 2016, there were 2,060 Pandas in the world, which prompted the WWF to change their status to “vulnerable to extinction”.

So, are there any Pandas in India? Sadly, there aren't, at least not the giant Pandas. The Red Panda (a relative of the giant Panda) is however found in India, especially in places like Darjeeling, Sikkim and Arunachal Pradesh.

ANNEXURE 2 TO BOARD'S REPORT

Risk Management

Business Risk

Unforeseen factors, be it related to industry, regulations, and/or the economy could affect business in an adverse manner, that could lead to impairment to income and capital. Also in a capital-intensive industry, any downward swings in revenues could be detrimental to earnings.

Emmbi is not in an industry that is overtly exposed to governmental regulations, and the fact that we have been profitable since inception and is a regular dividend payer mitigates the business risk to a large extent. Our capacity utilisation taking into account the expansion to 27,440 mtpa stands at 89%, and this is expected to move up to 95% the coming year. We have used a mix of out-sourcing, automation, and adoption of Industry 4.0, to ensure the best distribution of fixed costs. We consciously ensure that our production is not concentrated on one unit and is spread across five locations to mitigate any eventuality. We always maintain cordial and healthy relationship with workers, ensuring their safety and wellbeing.

Financial Risk

Emmbi's capital structure is very conservative, and it's cash flows adequate to meet obligations when due. Also the fair value of assets, far exceed the book value providing additional buffer in the event of a remote outlier. We are also rated investment grade with a positive outlook on our debt, and are confident that in the next few years this would only improve given the growth in our business. In addition, we do not rely on one lender and have multiple banking lenders, ample lines, and a good standing with all the lenders.

Liquidity Risk

We maintain adequate cash at all times. Despite making some purchases on an advance payment basis we have ample liquidity, and do not lock up our operating cash flow in non-core or unproductive assets. Inventories and debtors are managed prudently, and impairments negligible. Also the working capital cycle has shown a continual improvement over the past few years, and currently it is under 100 days. We maintain a healthy dividend pay out which cements that Emmbi is a very liquid company.

Single Product Risk

Emmbi's product line is well diversified with sales to over 200 clients in 70 countries across 40 products. No single client contributes to more than 5% of total revenues. We have strategically reduced our dependence on low margin products. Our foray into the B2C has also decoupled our concentration risk, where the consumers are more granular in nature.

Single Geography Risk

Emmbi exports to 70 countries and is not exposed to a single market or its vagaries.

Foreign Exchange Risk

Emmbi has an internal policy to hedge all its export revenues, and it has no exposure to foreign currency borrowings. The company also does not trade, or speculate in the foreign currency market or make any opportunistic positions.

Systems & Enterprise Wide Risk

We are compliant with best practices, as can be noted from the continual certifications, and the periodic audits. The Management at Emmbi does not view risks in silos, however analyses, how it can impact the whole organisation. The fact that Emmbi is accredited as an R&D House by the Government of India also emphasises that our risk management practices have been approved and commended by the Government.

We have in the past year, invested into a supply-chain ERP, designed specifically for our B2C segment. All our distributors, stockists, and dealers are connected through a Sales Force, which in addition to helping with leads, has also increased operational efficiencies.

Pandemic and Unforeseen Events

Whilst there are events, whose probability of occurrence may be very-low, however the impact can be very-severe, threaten disruptions to both earnings, and capital. Emmbi ensures that in case of such a rarity, it's prudent way of decision making, policies, financial resources, flexible manufacturing, and experience of the Management, makes it on a better footing to handle such events.

Management Discussion and Analysis

Forward Looking Statements

The report contains forward-looking statements, identified by words like 'plans', 'expects', 'will', 'anticipates', 'believes', 'intends', 'projects', 'estimates' and so on. All statements that address expectations or projections about the future, but not limited to the Company's strategy for growth, product development, market position, expenditures and financial results, are forward-looking statements. Since these are based on certain assumptions and expectations of future events, the Company cannot guarantee that these are accurate or will be realised. The Company's actual results, performance or achievements could thus differ from those projected in any forward-looking statements. The Company assumes no responsibility to publicly amend, modify or revise any such statements on the basis of subsequent developments, information or events.

Economy and Outlook

Economic activity, that had been muted the year preceding Covid, and which took a turn for the worse the previous fiscal experienced a good growth of 8.70%, which incidentally was the highest experienced over the past 22 years. This however was not secular across all sectors, and parts of the country continued to reel under the effects of Covid, especially the first quarter of this fiscal. The benign interest rate scenario, availability of finances and the government's initiatives of building 'Aatma-Nirbhar-Bharat', the PLI schemes, and the Record-breaking vaccination roll-out, instilled confidence in the economy the following quarters. However, in Q4 of '22 a minor slow down, due to supply chain issues, a surge in the commodity prices, and the situation in Ukraine leading to higher input costs across the industry.

The World Economy experienced a good growth, especially in areas such as technology, pharmaceuticals, and bio-sciences spaces; the up-tick in commodities, resulted in prices firming up and after the previous year's contraction of 3.10%, the global GDP experienced a 6.10% growth. This was driven essentially by the Developing Economies (China, India, parts of Asia and Latin America). Emmbi's export zones, the US, and Europe witnessed good pick-up, and this coupled with our Sales effort culminated in a record growth of Exports.

The Domestic outlook is tempered optimism given uncertainties across the globe, inflation, and consumer's hesitancy to spend; the Global outlook appears muted given the situation in Ukraine, and the spill-over effects of it across Europe. The IMF estimates the Emerging Markets and Developing economies to grow at 4.50%, and the Advanced Economies at 2.50% approximately.

Emmbi's thought process had always been that of balanced overall growth with focus on margins, rather than just volumes, and the strategic decision to have flexible manufacturing capabilities, invest in upscaling people, and creating a robust distribution network within India for Avana and across the world for all other product lines. Continual innovation helped us to build resilience in 2021, translated into stupendous growth in fiscal '22.

Sector Performance

The world is witnessing an exponential growth in the usage and consumption of polymers. Production that used to range at 340 million tons p.a. in 2010, crossed 550 tons the turn of the decade (a CAGR of 10%). The completely man-made nature of polymers makes innovation and creation of new materials and applications limitless. The Polymer sector in India is estimated at over \$75 billion, and this is expected to exhibit near double-digit growth in the next five years. Despite being one of the world's largest economies, India lags in the consumption of polymers at just under 10kgs (World Average 30kgs).

During the period of the pandemic world has seen the immense role polymer products can play for the betterment of mankind. Responsible and sustainable polymer processing is going to be key to the future. World is now a very cautious place, and we understand and appreciate that. Emmbi has turned its Special

focus on making its manufacturing and products more sustainable and eco-friendlier with use of the theories of Circular Economy.

There has been a perceptible up-tick in the past two years the government’s emphasis on infrastructure, the manufacturing pick-up, and the emphasis on water conservation products, are the primary double-digit growth drivers in the medium term. Impact of post Covid-19 world is yet to be studied on this sector. As large part of polymers is part of the essential class of the supply chain in the industry we have a feeling that the impact of the Covid-19 will be substantially lower on this sector than other sectors like Aviation or Hospitality.

Emmbi’s Industries International and Domestic Business: Product Range

We are proud to state that we have over 50 individual products that cater to a client base of over 200, spread across 70 countries .

B2B

International

Revenues from Exports stood at Rs. 3194.28 million, notably across 70 countries with North America being the largest contributor, followed by Europe. In addition to diversification across geographies, Emmbi’s clientele include a wide range of industries. This translated into an impressive 73% growth year on year, and it was an optimal mix of volumes, and margins.

B2B

Domestic Business

Domestic growth also witnessed a smart 42% over the previous year and stood at Rs. 1909.42 million for fiscal '22. We have been prudent in growing this segment, despite it providing a predictable stream of revenues, for we firmly believe that resources should be allocated to business lines or products, that helps in maximising ROCE. Moreover, this is a highly competitive segment, where the buyers are highly price elastic. This coupled with the fact that Emmbi’s manufacturing facilities are fungible, and we saw a margin driven growth in the export business, led us to focus on the International Segment.

B2C (Avana)

Consumer Durables

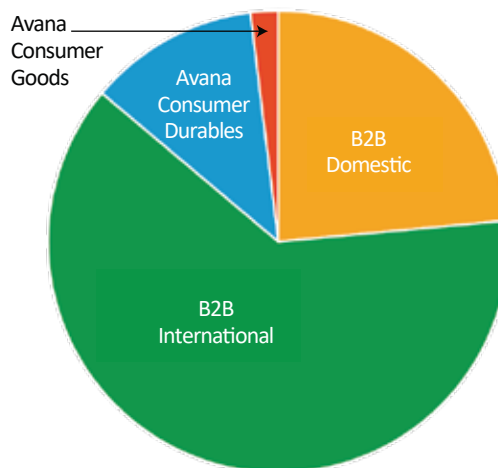

The agriculture sector that showed a good growth the previous year, slowed down in fiscal '22, and despite this Emmbi’s business showed a growth of over 20%. We are now well entrenched in Maharashtra, Rajasthan, Madhya Pradesh and Karnataka. Positive forays have been made into Punjab, Haryana, Andhra Pradesh and Telangana, with the introduction of shrimp ponds.

Consumer Goods

Revenues for fiscal '23, despite the uncertain situation in Eastern Europe, and High Commodity Prices, seem sustainable on account of the following,

1. Emmbi's innovation, track record, and distribution network makes it a first-choice provider for existing clients and serves as a referral base.
2. Increase in the Export demand of products under Advance Composites & Speciality Packaging.
3. The ability to travel and meet with clients and allowing for them to come across and visit our facilities, has further strengthened brand 'Emmbi' in their minds and hearts.
4. 'Avana' that has made a mark in few states, is expanding across Indian and introducing newer products, that have found tremendous acceptance.
5. The increased focus on hygiene, and food security augurs well for the product lines the company is present.
6. The Government's initiatives for improving farmer's incomes, and a greater thrust across rural India on Pond manufacturing.
7. The Honourable PM's impetus on creating 50,000 ponds across India over the next few years, is very positive for Emmbi. We are today the World's largest pond lining company, and given our quality, and track record we are confident of winning a share of this business.
8. An increase in the consumption of polymer products across the globe.
9. Consumption Shift both in B2C, and B2B – the increased usage of e-commerce (Avanamart) polypropylene bags, polymer syringes, polymer lined tanks, polymer mixes in highways etc.
10. Our efforts at developing sustainable packaging that has found acceptance in the UK, and very soon we plan to roll this in Europe.

Vertical-wise breakdown

Figures as on 31st March, 2022

Emmbi's Manufacturing Operations: Plant Capacity and Utilisation

Plant capacity remained at 27,440 MT/ Annum, and Capex spend, was on routine maintenance. Industry 4.0 standards (IoT), and Robotic Process Automation (RPA) have increased operational efficiencies, improved product technicalities, and reduced wastage and scrap to a near zero levels.

Inventories Management

Emmbi's strategy of managing business in a non-speculative nature, translates down to its inventory management policies. We always make it a point to match the order pipeline to the inventory levels. Procurements of raw material is simultaneous to order booking, and that way neither the fluctuations in the prices of crude, and thereby its derivatives impact the income statement or capital in an adverse manner. More-over the relationship between crude prices, and polymer prices is not entirely direct. The floor cost of polymers, irrespective of the prices of crude can be pegged around US \$ 1000-1050-1110 considering the fixed costs, and logistics. Finally, it is the many stages derivative Polypropylene that goes into our products, and the actual direct impact of crude price constitutes only under 15% of the total product component. Despite this linkage, we as a policy continue to apply effective hedge mechanisms.

Record Earnings

We crossed the Rs. 5 bn mark in revenues that translated into an EPS of Rs. 10.76.

Quality and Adherence

We adhere to the latest international standards and believe in adapting the best practices in the industry, be it people, processes, quality of our products

or internal systems. We are in the process of “Integrated Management System” (IMS) a customised combination of ISO 9001:2015 for Quality Management system ISO14001:2015 for Environmental Management System and ISO 45001:2018 for Occupational Health and Safety Management. We have also reduced waste by 50%, and we plan to become a ‘zero’ waste company over the next eight quarters.

People and Processes

We continue in investing and developing existing talent, and source human resources when needed. We continue to conduct workshops on both technical, and soft skills, with the help of internally created teams, and external experts. We have in place a ‘Whistle Blower’ policy keeping in check with the best practices (Detailed in the Board’s Report).

Information Technology

All our plants across the nine locations are integrated, and they in-turn communicate to the head offices, and field employees through various software systems. We are one of the first to adopt Industry 4.0 standards that has led to process and operational improvements and getting translated into financial savings.

Research & Development

We are a full-fledged R&D Development centre, accredited by the Department of Science and Technology, the Government of India. Our R&D department is staffed with a 30-member team. As a policy we allocate ~2.50% of revenues towards, research and development of product and processes. This not only helps us getting tangible benefits like tax breaks, preferred bidder for Government projects, etc. We also get invaluable intangible benefits such as visibility in the international arena, through government initiatives.

Cautionary Statement

The estimation and expectation made in this report may differ from actual performance due to extraneous factors such as economic conditions, governmental policies, regulations, and other factors.

Statement of Income

Revenue from Operations

The Company recorded the highest revenues in history by crossing the Rs. 5 bn mark and stood at Rs. 5,104 million (Rs. 3,198 million), a growth of 60%. The growth was a mixture of volume, and margins with exports crossing the magical Rs. 5 bn. The fungibility, and flexibility of the factory, and the production lines, helped to migrate with ease to cope with the demand for value added margin accreting products. These aided in vast improvements in Gross Profits, EBIDTA, and a record Net Income of Rs. 190 million (Rs. 77 million).

Cost of Operations

Higher capacity utilisation, and margin aided growth helped in lowering the cost of operations, and improvement to gross margins. Cost of Material consumed stood at Rs. 2,819 million (Rs. 1,801 million) and Employee Costs at Rs. 197 million (Rs. 179 million), however as a percentage of Revenues improved to 64.72% (65.72%), and 4.53% (6.53%) respectively. Constantly engaging with and improving upon production techniques including- Robotic Process Automation (RPA), Industry 4.0, and Kaizen (Project Manthan) also helped in ensuring that there were no catastrophic setbacks either financially or operationally.

Cost of Finance

Finance costs stood at Rs. 147 million (Rs. 114 million), the improvement on account of lower finance costs, and as a percentage of revenues improved to 3.37% (4.15%). Interest coverage ratio remained a healthy 3.36x and Emmbi's ratings remain investment grade. Depreciation and amortisation expenses stood at Rs. 87 million (Rs. 72 million).

Profits and Distribution

Emmbi Industries Limited reported a record after-tax profit of Rs. 190 million (Rs. 77 million), and the PAT margin stood at 4.37% (2.80%); this excluded any export incentives to be announced by the government. The Company's liquidity, and financial position continued to remain strong, with both un-utilised lines of credit, as well as healthy cash balances. The company declared a dividend of Re. 0.60 per share.

Balance Sheet Items

Emmbi prides itself in growing conservatively, with minimum risks to shareholders, and its stakeholders. Such a culture always holds good in the long-run, and especially good in challenging times. It has managed its debt at a very conservative level and shown a continual growth in net-worth. The significant growth in Revenues was achieved by only a net-increase in Rs. 50 million to the long term assets, leading to better RoCE.

Assets and Deployment

Assets for the year stood at Rs. 3,546 million (Rs. 3,285 million), the growth on account of core assets, required for business operations. Fixed assets addition pertained more towards routine maintenance and marginal capacity expansion (de-bottleneck capacity), which stood at 27,440 mtpa.

Current Assets

Inventories at the year-end stood at Rs. 977 million (Rs. 902 million); the increase on account of both higher prices, and volumes to match the demand. The average inventories holding is normally three to four months, the primary supplier of raw materials to the industry normally shutdown their plant for maintenance in March, so as a prudent principle the company maintains higher inventories in the last quarter. The year also saw a surge in demand for exports (reflected in the performance), and this also required the company to hold larger inventories.

Receivables stood at Rs. 759 million (Rs. 638 million), on account of higher exports. The company's exports are backed by ECGC guarantees and to-date it has not resorted to seeking a repayment from the same, as the quality of receivables are at 100% collection.

The Asset conversion cycle stood at 96 days (149 days), a significant improvement by almost two months.

Fixed Assets

The company invested very marginally in the creation of fixed assets, as the expansion plans were completed last year, and with the de-bottleneck the current capacity stands at 27,440 mtpa.

Capital and Borrowings

The growth was financed through a mix of internal accruals, additional term borrowings, and working capital. Debt-Equity was conservative at 0.94x, and the current ratio at a healthy 1.49x.

Total net worth increased to Rs. 1,534 million (Rs. 1,352 million), whilst overall bank borrowings stood at Rs. 1,441 million (Rs. 1,364 million). In the course of the year the company repaid its obligations, as per schedule.

A long walk to Wall Street

Most of us would never have heard of Chris Gardner were it not for a hit Hollywood movie starring Will Smith and his son, Jaden Smith in the lead roles. But Mr Gardner's story is no Hollywood fiction. It's as inspiring as it is poignant.

Born in Milwaukee, Wisconsin, Gardner did not have many positive male role models as a child, as his father was living in Louisiana during his birth, and his stepfather. When Gardner was eight years old, he and his sisters were placed in foster care when their mother was convicted of trying to kill his stepfather by burning down the house while he was inside. While in foster care, Gardner got acquainted with his maternal uncle, Henry, who had a profound influence on him. Unfortunately, Henry drowned in the Mississippi River when Chris was nine years old. Gardner determined from his early experiences that alcoholism, domestic abuse, child abuse, illiteracy, fear, and powerlessness were all things he wanted to avoid in the future.

After serving in the Navy, Gardner became acquainted with a decorated San Francisco cardiac surgeon who offered him as a research assistant at the University of California Medical Center and Veterans Administration Hospital in San Francisco. Gardner began to dream of a career in medicine. But, with ten years of medical training ahead of him and with changes in health care just on the horizon, he realized that the profession would be vastly different by the time he could practice medicine. He abandoned his medical career. He continued to work as a research assistant a job that paid him just \$ 8,000 a year which was not enough to support his son (born in 1981), and a live-in girlfriend. Four years later, he doubled his salary by taking up a job as a medical equipment salesman.

A pivotal moment in his life occurred, when, during a sales call, he encountered an impeccably dressed man in a red Ferrari. On asking the man about his career, he told Gardner he was a stockbroker. From that moment on, Gardner's career path was decided. The stockbroker arranged for meetings with various Wall Street firms that offered a training program. Gardner made these rounds over two months, postponing or canceling his sales appointments while his car accumulated parking tickets. He finally got his break when he was accepted into the training program at E.F. Hutton. He quit his sales job, focused on his stockbroker training and a few weeks later, appeared at the office to work only to find that his manager had been fired. And, if things couldn't get worse, Gardner was sentenced to ten days in jail because he was unable to pay \$ 1,200 in parking fines. Out of jail, Gardner didn't have enough money to raise the deposit to rent an apartment. So, Mr Gardner and his son homeless now would instead sleep wherever they could a the toilet at a railway station, in parks, at a church shelter, or under his desk (he had taken up a position in the broker Dean Witter Reynolds' training program). They ate in soup kitchens, and what little money he had was spent on putting his son in day nursery so he could go to work. This went on for nearly a year. In 1982, having passed his General Securities Representative Exam, Gardner became a full employee at Dean Witter Reynolds, and was eventually hired by Bear Stearns & Co.

In 1987, he formed his own firm, Gardner Rich & Co. He sold his minority stake in the firm in 2006 in a multi-million dollar deal and later, published his memoir that eventually became the hit Hollywood movie The Pursuit of Happiness.

Independent Auditor's Report

TO THE MEMBERS OF
EMMBI INDUSTRIES LIMITED.

Report on the Financial Statements

Opinion

We have audited the accompanying financial statements of Emmbi Industries Limited ("the Company"), which comprise the Balance Sheet as at March 31, 2022, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows for the year ended on that date, and a summary of the significant accounting policies and other explanatory information (hereinafter referred to as "the financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2022, the profit and total comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the financial statements in accordance with the Standards on Auditing specified under section 143(10) of the Act (SAs). Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the independence requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the following matter to be the key audit matter to be communicated in our Report.

Key Audit Matter

Revenue Recognition

- The Company recognises revenue from products when performance obligations are fulfilled at the time of dispatch.

For sale transactions in a certain period of time around the Balance Sheet date, it is essential to ensure that the control of goods have transferred to the customers. As revenue recognition is subject to management's judgement on whether the control of the goods have been transferred, we consider cut-off of revenue as a key audit matter.

(See Note 3.4 & Note 27 to the standalone financial statements)

Auditor's Response

In view of the significance of the matter we applied the following audit procedures in this area, among others to obtain sufficient appropriate audit evidence:

- We obtained an understanding of the revenue recognition process and tested the Company's controls around the timely and accurate recording of sales transactions.
- We tested the access and change management controls of the relevant information technology system in which shipments are recorded.

Information Other than the Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Company's annual report, but does not include the standalone financial statements and our auditors' report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's Responsibility for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance including, total comprehensive income, changes in equity and cash flows of the Company in accordance with the Ind AS and other accounting principles generally accepted in India, including the Ind AS specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so. The Board of Directors are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements. As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional scepticism throughout the audit.

We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by Section 143(3) of the Act, based on our audit we report that:
 - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
 - c) The Balance Sheet, the Statement of Profit and Loss including Other Comprehensive Income, Statement of Changes in Equity and the Statement of Cash Flow dealt with by this Report are in agreement with the relevant books of account.
 - d) In our opinion, the aforesaid financial statements comply with the Ind AS specified under Section 133 of the Act.
 - e) On the basis of the written representations received from the directors as on March 31, 2022 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2022 from being appointed as a director in terms of Section 164 (2) of the Act.
 - f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "**Annexure A**". Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls over financial reporting.
 - g) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended:

In our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the Company to its directors during the year is in accordance with the provisions of section 197 of the Act. The Ministry of Corporate affairs has not prescribed other details under section 197(16) which are required to be commented upon by us.
 - h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended in our opinion and to the best of our information and according to the explanations given to us:
 - i. The Company has disclosed the impact of pending litigations on its financial position in its financial statements.
 - ii. The Company doesn't have any long term contracts including derivative contracts requiring provision for material foreseeable losses.
 - iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company.
 - iv.
 - a) The Management has represented that, to the best of its knowledge and belief, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person(s) or entity(ies), including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;
 - b) The Management has represented, that, to the best of its knowledge and belief, no funds have been received by the company from any person(s) or entity(ies), including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries; and
 - c) Based on such audit procedures that we have considered reasonable and appropriate in the circumstances; nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) contain any material mis-statement.
 - v. The dividend declared or paid during the year by the Company is in compliance with Section 123 of the Act.
2. As required by the Companies (Auditor's Report) Order, 2020 ("the Order") issued by the Central Government in terms of Section 143(11) of the Act, we give in "**Annexure B**" a statement on the matters specified in paragraphs 3 and 4 of the Order.

Annexures to the Independent Auditor's Report

Annexure A

(Referred to in Paragraph 1 (f) of the Report on Other Legal and Regulatory Requirements in our report of even date)

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub Section 3 of Section 143 of the Companies Act, 2013 ("the Act")

1. We have audited the internal financial controls over financial reporting of Emmbi Industries Ltd. ("the Company") as of 31st March, 2022 in conjunction with our audit of the Ind AS financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

2. The Company's management is responsible for establishing and maintaining internal financial controls based on internal controls over financial reporting criteria established by the company considering the essential components of internal controls stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act 2013 ("the Act").

Auditor's Responsibility

3. Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing deemed to be prescribed under Section 143 (10) of the Act to the extent applicable to an audit of internal financial controls, both applicable to an audit of internal financial controls and, both issued by ICAI. Those Standards and the Guidance Note require that we comply with the ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.
4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risk of material misstatement of the Ind AS financial statements, whether due to fraud or error.
5. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial control system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

6. A company's internal financial controls over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

7. Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial controls over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2022, based on the internal controls over

financial reporting criteria established by the Company considering the essential components of internal controls stated in the Guidance Note on Audit of Internal Financial Controls Over Financial reporting issued by ICAI.

Notes Forming Part of the Standalone Financial Statements For The Year Ended On 31st March , 2022

NOTE: 1 COMPANY OVERVIEW

EMMBI INDUSTRIES LIMITED (“Emmbi” or “The Company”) is a public limited company incorporated and domiciled in India and has its registered office at Silvassa, UT of Dadra & Nagar Haveli and Daman & Diu, India. The Company has its primary listings on the BSE Limited and National Stock Exchange (India) Limited. The financials were authorized for issuance by the company’s Board of Directors and Audit Committee on May 16th, 2022.

The principal activities of the Company comprises of Manufacturing of HDPE & PP- Woven Polymer Based Products.

NOTE: 2 BASIS OF PREPARATION AND MEASUREMENT

2.1 Statement of Compliance

The Financial statements as at the end for the year ended March 31, 2022 have been prepared in accordance with the Indian Accounting Standards (“Ind AS”) notified under the Companies (Indian Accounting Standards) Rules, 2015 as amended.

2.2 Accounting Convention and Basis of Measurement

The financial statements have been prepared on the historical cost convention and on an accrual basis, except the following material items that have been measured at fair value as required by relevant Ind AS:

- i. Certain financial assets measured at fair value (refer accounting policy on financial instruments)
- ii. Defined benefit and other long – term employee benefits.

2.3 Functional and presentation currency

The financial statements are presented in India rupees, which is the functional currency of the company and the currency of the primary economic environment in which the company operates. All financial information presented in Indian rupees has been rounded to the nearest million of rupees except share and per share data.

2.4 Use of Judgments, estimates and assumptions

The preparation of financial statements in conformity with Ind AS requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amount of assets, liabilities, income and expenses and the disclosure of contingent liabilities and contingent assets. Actual results may differ from these estimates. Estimates and underlying assumptions are reviewed on a periodic basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected.

Information about critical judgments in applying accounting policies, as well as estimates and assumptions in respect of following areas, that have most significant effect to the carrying amounts within the next financial year are included in the relevant notes.

- i. Useful Lives of property, plant and equipment and intangibles.
- ii. Measurement of defined benefit obligations.
- iii. Measurements and likelihood of occurrence if provisions and contingencies.
- iv. Recognition of deferred tax assets.

2.5 Operating Cycle:

Based on the nature of products / activities of the company and the normal time between acquisition of assets and their realization in cash or cash equivalents, the company has determined its operating cycle as 12 months for the purpose of classification of its assets and liabilities as current and non-current.

NOTE: 3 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

3.1 Property, Plant and Equipment (PPE)

- i. Property, plant and equipment are measured at cost less accumulated depreciation and impairment losses, if any.
- ii. The cost of property, plant and equipment includes those incurred directly for the construction or acquisition of the assets, and directly attributable to bringing it to the location and condition necessary for it to be capable of operating in the manner intended by the management.
- iii. The cost of major spares is recognised in the carrying amount of the item of property, plant and equipment, in accordance with the recognition criteria set out in the standard. The carrying amount of the replaced part is derecognized at the time of actual replacement. The costs of day-to-day servicing of the item are recognised in statement of profit and loss as incurred.

- iv. Depreciation on tangible assets including those on leasehold premises is provided under straight line method over the useful life of assets specified in Part C of Schedule II to the Companies Act, 2013 and in the manner specified therein, except in respect of dies and moulds which are depreciated over their technically estimated useful lives on straight line method.
- v. Depreciation methods, useful lives and residual values are reviewed at each reporting date and accounted as change in accounting estimate.
- vi. Each component / part of an item of property, plant and equipment with a cost that is significant in relation to the total cost of the item is depreciated separately only when it has a different useful life. The gain or loss arising from the de-recognition of an item or property, plant and equipment is included in statement of profit or loss when the item is derecognized.
- vii. Expenditure attributable / relating to PPE under construction / erection is accounted as below:
 - A. To the extent directly identifiable to any specific plant /unit, trial run expenditure net of revenue is included in the cost of property, plant and equipment.
 - B. To the extent work not completed to any specific plant /unit, is grouped under 'capital work-in-progress'.

3.2 Intangible Assets

- i. Intangible asset is recognised when it is probable that future economic benefits are attributable to the asset will flow to the enterprise and the cost of the asset can be measured reliably.
- ii. Acquired Brand and Knowledge Development Cost is recognized as intangible asset upon completion of development and commencement of commercial production.
- iii. Intangibles asset are amortized on straight line method over their technically estimated useful lives.
- iv. Residual values and useful lives for all intangible assets are reviewed at each reporting date. Changes, if any, are accounted for as changes in accounting estimates.

3.3 Inventories are valued as under:

I) Raw materials, components, consumables and stores and spares	Cost or net realisable value, whichever is lower.
II) Work in progress and finished goods	Net realisable value or cost of materials plus cost of conversion and other costs incurred in bringing them to the present location and condition, whichever is lower
III) Consumable Spares	Cost or net realisable value, whichever is lower.

3.4 Revenue from contracts with customers

The Company derives revenues primarily from sale of HDPE & PP- Woven Polymer Based Products.

Ind AS 115 "Revenue from Contracts with Customers" provides a control-based revenue recognition model and provides a five step application approach to be followed for revenue recognition.

- Identify the contract(s) with a customer;
- Identify the performance obligations;
- Determine the transaction price;
- Allocate the transaction price to the performance obligations;
- Recognise revenue when or as an entity satisfies performance obligation.

Sale of goods

Revenue from sale of goods is recognised when control of the products being sold is transferred to our customer and when there are no longer any unfulfilled obligations. The Performance Obligations in our contracts are fulfilled at the time of dispatch.

Sales have been recorded net of rebates and trade discounts but are grossed up for Goods and Services Tax collected thereon.

3.5 Employee Benefits

i) Short Term Benefits:

All employee benefits falling due wholly within twelve months of rendering the services are classified as short term employee benefits. The cost of the benefits like salaries, wages, medical, leave travel assistance, short term compensated absences, bonus, exgratia, etc. is recognised in the period in which the employee renders the related service.

Unbreakable

Magnificent Mary is the moniker that's stuck to the darling of Indian sports, M C Mary Kom. The only Indian boxer to have qualified for the 2021 Summer Olympics, Mary Kom's story is one of grit, determination and resilience. No surprise then, that in 2018, the government of Manipur conferred on her, the title of "Meethoi Leima" which loosely translates to, "Great or Exceptional Lady."

Mary was born to a humble household. Born in Kagathei village in Manipur to tenant farmers, Mary grew up largely helping her parents in farm-related chores. Perhaps, she took a keen interest in boxing because her father was a keen wrestler in his younger days. But her real interest in the sport was piqued in class 8. Dingko Singh, a fellow Manipuri, had just returned from the Bnagkok Asian Games, having won a gold. Mary was hooked.

The journey was anything but easy and Mary's boxing journey was also the beginning of her many challenges. Mary struggled with poverty from an early age. Being tenant farmers meant a very limited income, and that in turn, meant that even something like following the diet required of a boxer was a challenge.

But her diet was only one of her many challenges along the way. Kom's father, a former boxer and wrestler himself, initially wasn't too keen for her to pursue the sport. He worried that she might injure herself, and boxing was still seen as a predominantly male sport. Moreover, he thought that any injuries to Mary's face might spoil her chances of marriage.

And so, Mary kept her keen interest in boxing from her parents, training in secret, and working overtime to balance her household duties with her boxing. It was only in 2000, when her picture appeared in the newspapers announcing her winning the state championship, did her father get to know that Mary was in fact, a young boxer with a lot of promise. Between 2000 and 2005, she went on to win five national championships. Mary was truly on a roll now.

All that changed once again in 2005, when she got married and decided to take a break from boxing, opting to tend to her family instead. After having her first child, Mary returned to boxing and once again, proved her mettle by winning a silver at the 2008 Asian Women's Boxing Championship, her fourth consecutive gold at the AIBA Women's Boxing Championships and a gold in the 2009 Asian Indoor Games.

Her 2012 Olympics outing is also a testament to her grit and determination. Mary, who had earlier fought in the 46 and 48 kg categories, shifted to a heavier weight class after the world body decided to allow only three weight categories in women's boxing. Her coach couldn't join her at the Olympic Village since he did not have the 3-star rating that was mandatory. She had all her luggage and her passport stolen on her way to the selection camp in Bangkok. Mary fought hard, losing in the semi final, but still assuring India of a bronze medal in boxing.

It was India's first medal in women's boxing at the Olympics

ii) Post Employment Benefits

A) Defined Contribution Plans

The contribution paid/ payable under provident fund scheme, ESI, scheme and employee pension scheme is recognised as expenditure in the period in which the employee renders the related service.

B) Defined Benefit Plans

The company's obligation towards gratuity is a benefit plan. The present value of the estimated future cash flows of the obligation under such plan is determined based on actuarial valuation using the projected unit credit method. Any difference between the interest income on plan assets and the return actually achieved and any changes in the liabilities over the year due to changes in actuarial assumptions or experienced adjustments within the plan are recognised immediately in other comprehensive income and subsequently not reclassified to the statement of profit and loss.

3.6 Foreign Currency Transactions

- i. Transactions relating to non-monetary items and sale of goods/ services denominated in foreign currency are recorded at the exchange rate prevailing or a rate that approximates the actual rate on the date of transactions.
- ii. Assets and liabilities in the nature of monetary items denominated in foreign currency are restated at prevailing exchange rate as at the end of the reporting period.
- iii. Exchange differences arising on account of settlement/conversion of foreign currency monetary items are recognised as expense or income in the period in which they arise.

3.7 Current Tax and Deferred Tax

i) Taxation

Income tax expense represents the sum of the tax currently payable and deferred tax.

ii) Current Tax

The tax currently payable is based on taxable profit for the year. Taxable profits differ as reported in the statement of profit and loss because of items of income and expense that are taxable or deductible in other years and items that are never taxable or deductible. The company's current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

iii) Deferred Tax

Deferred tax is recognized on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all temporary differences to the extent that it is possible that taxable profits will be available against those deductible temporary differences can be utilized. The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the assets to be recovered.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realized, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the company expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

Minimum Alternate Tax

Minimum Alternate Tax (MAT) credit is recognised as an asset only when and to the extent there is convincing evidence that the company will pay normal income tax during the specified period. Such asset is reviewed at each Balance Sheet date and the carrying amount of the MAT credit asset is written down to the extent there is no longer a convincing evidence to the effect that the Company will pay normal income tax during the specified period.

3.8 Borrowing Costs

- i. Borrowing costs incurred for obtaining assets which take substantial period to get ready for their intended use are capitalized to the respective assets wherever the costs are directly attributable to such assets and in other case by applying weighted average cost of borrowings to the expenditure on such assets. Post the commercial production or trial run, borrowing cost will be treated as expense for the year.
- ii. Other borrowing costs are treated as expense for the year.

3.9 Financial Instruments (Financial Assets and Financial Liabilities)

- i. All financial instruments are recognised initially at fair value. The classification of financial of financial instruments depends on the objective of the business model for which it is held and the contractual cash flows that are solely payments of principal and interest on the principal amount outstanding. For the purpose of subsequent measurement, financial instruments of the company are classified into (a) Non-Derivative financial instruments and (b) Derivative financial instruments.
- ii. **Financial Instruments**
 - A) Security deposits, cash and cash equivalents, employee and other advances, trade receivables and eligible current and non-current financial assets are classified as financial assets under this clause.

- B) Loans and borrowings, trade and other payables including deposits collected from various parties and eligible current and non-current financial liabilities are classified as financial liabilities under this clause.
- C) Financial instruments are subsequently carried at amortized cost wherever applicable using effective interest rate method (EIR) less impairment loss.
- D) Transaction cost that are attributable financial recognized at amortized cost are included in the fair value of such instruments.
- E) Investments in equity shares, including investment in foreign company and LLP, are measured at fair value through profit and loss as per Ind AS 109.

3.10 Impairment

i. Financial Assets

- A) The company applies expected credit loss (ECL) model for measurement and recognition of impairment loss on the following financial assets and credit risk exposure.
 - Financial assets that are debt instruments, and are measured at amortized cost wherever applicable for e.g. loans, debt securities, deposits, and bank balance.
 - Trade Receivables
- B) The company follows 'simplified approach' for recognition of impairment loss allowance on trade receivables which do not contain a significant financing component. The application of simplified approach does not require the company to track changes in credit risk. Rather, it recognizes impairment loss allowance based on lifetime ECL at each reporting date, right from its initial recognition.

ii. Non-financial Assets

The Company assesses at each reporting date whether there is any objective evidence that a non-financial asset or a group of non-financial asset is impaired. If any such indication exists, the company estimates the amount of impairment loss.

3.11 Provisions

- i. Provisions are recognized when the company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of economic benefit will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.
- ii. The amount recognized as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risk and uncertainties surrounding the obligation.
- iii. When some or all of the economic benefits require to settle a provision are expected to be recovered from a third party, the receivable is recognized as an asset, if it is virtually certain that reimbursement will be received and the amount if the receivable can be measured reliably.

3.12 Earnings per share (EPS)

- i. Basic EPS is computed by dividing the profit after tax by the weighted average number of equity shares outstanding during the year/ period.
- ii. Diluted EPS is computed by dividing the profit after tax, as adjusted for dividend, interest and other charges to expenses or income relating to the dilutive potential equity shares, by the weighted average number of equity shares considered for deriving basic EPS and the weighted average number of equity shares which could have been issued on the conversion of all dilutive potential equity shares.

3.13 Leases

A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Company as a lessee

The Company accounts for each lease component within the contract as a lease separately from non-lease components of the contract and allocates the consideration in the contract to each lease component on the basis of the relative stand-alone price of the lease component and the aggregate stand-alone price of the non-lease components.

The Company recognises right-of-use asset representing its right to use the underlying asset for the lease term at the lease commencement date. The cost of the right-of-use asset measured at inception shall comprise of the amount of the initial measurement of the lease liability adjusted for any lease payments made at or before the commencement date less any lease incentives received, plus any initial direct costs incurred and an estimate of costs to be incurred by the lessee in dismantling and removing the underlying asset or restoring the underlying asset or site on which it is located. The right-of-use assets is subsequently measured at cost less any accumulated depreciation, accumulated impairment losses, if any and adjusted for any remeasurement of the lease liability. The right-of-use assets is depreciated using the straight-line method from the commencement date over the shorter of lease term or useful life of right-of-use asset. The estimated useful lives of right-of-use assets are determined on the same basis as those of property, plant and equipment. Right-of-use assets are tested for impairment whenever there is any indication that their carrying amounts may not be recoverable. Impairment loss, if any, is recognised in the statement of profit and loss.

The Company measures the lease liability at the present value of the lease payments that are not paid at the commencement date of the lease. The lease payments are discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, the Company uses incremental borrowing rate. For leases with reasonably similar characteristics, the Company, on a lease by lease basis, may adopt either the incremental borrowing rate specific to the lease or the incremental borrowing rate for the portfolio as a whole. The lease payments shall include fixed payments, variable lease payments, residual value guarantees, exercise price of a purchase option where the Company is reasonably certain to exercise that option and payments of penalties for terminating the lease, if the lease term reflects the lessee exercising an option to terminate the lease. The lease liability is subsequently remeasured by increasing the carrying amount to reflect interest on the lease liability, reducing the

carrying amount to reflect the lease payments made and remeasuring the carrying amount to reflect any reassessment or lease modifications or to reflect revised in-substance fixed lease payments.

The Company recognises the amount of the re-measurement of lease liability as an adjustment to the right-of-use asset. Where the carrying amount of the right-of-use asset is reduced to zero and there is a further reduction in the measurement of the lease liability, the Company recognises any remaining amount of the remeasurement in statement of profit and loss.

The Company has elected not to apply the requirements of Ind AS 116 to short-term leases of all assets that have a lease term of 12 months or less and leases for which the underlying asset is of low value. The lease payments associated with these leases are recognized as an expense on a straight-line basis over the lease term.

Company as a lessor

At the inception of the lease the Company classifies each of its leases as either an operating lease or a finance lease. The Company recognises lease payments received under operating leases as income on a straight-line basis over the lease term. In case of a finance lease, finance income is recognised over the lease term based on a pattern reflecting a constant periodic rate of return on the lessor's net investment in the lease. When the Company is an intermediate lessor it accounts for its interests in the head lease and the sub-lease separately. It assesses the lease classification of a sub-lease with reference to the right-of-use asset arising from the head lease, not with reference to the underlying asset. If a head lease is a short term lease to which the Company applies the exemption described above, then it classifies the sub-lease as an operating lease.

If an arrangement contains lease and non-lease components, the Company applies Ind AS 115 Revenue to allocate the consideration in the contract.

4.1 Changes in accounting policies and disclosures

New and amended standards

There were no new standards that impacted the financial statements of the Company and no changes to the Company's accounting policies.

4.2 Standards issued but not yet effective up to the date of Financial Statements Standards issued but not yet effective:

Ministry of Corporate Affairs ("MCA") notifies new standard or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. On March 23, 2022, MCA amended the Companies (Indian Accounting Standards) Amendment Rules, 2022, applicable from April 1st, 2022, as below:

Ind AS 103 – Reference to Conceptual Framework

The amendments specify that to qualify for recognition as part of applying the acquisition method, the identifiable assets acquired and liabilities assumed must meet the definitions of assets and liabilities in the Conceptual Framework for Financial Reporting under Indian Accounting Standards (Conceptual Framework) issued by the Institute of Chartered Accountants of India at the acquisition date. These changes do not significantly change the requirements of Ind AS 103. The Company does not expect the amendment to have any significant impact in its financial statements.

Ind AS 16 – Proceeds before intended use

The amendments mainly prohibit an entity from deducting from the cost of property, plant and equipment amounts received from selling items produced while the company is preparing the asset for its intended use. Instead, an entity will recognise such sales proceeds and related cost in profit or loss. The Company does not expect the amendments to have any impact in its recognition of its property, plant and equipment in its financial statements.

Ind AS 37 – Onerous Contracts - Costs of Fulfilling a Contract

The amendments specify that that the 'cost of fulfilling' a contract comprises the 'costs that relate directly to the contract'. Costs that relate directly to a contract can either be incremental costs of fulfilling that contract (examples would be direct labour, materials) or an allocation of other costs that relate directly to fulfilling contracts. The amendment is essentially a clarification and the Company does not expect the amendment to have any significant impact in its financial statements.

Ind AS 109 – Annual Improvements to Ind AS (2021)

The amendment clarifies the treatment of any cost or fees incurred by an entity in the process of recognition of financial liability in case of repurchase of the debt instrument by the issuer. The Company does not expect the amendment to have any significant impact in its financial statements.

Ind AS 106 – Annual Improvements to Ind AS (2021)

The amendments remove the illustration of the reimbursement of leasehold improvements by the lessor in order to resolve any potential confusion regarding the treatment of lease incentives that might arise because of how lease incentives were described in that illustration. The Company does not expect the amendment to have any significant impact in its financial statements.

The Survivor

What if you were one of the world's best-known musicians, had millions of devoted followers and were referred to as 'God', only to almost lose it all? To face the demons of drug and alcohol addiction to the extent that you almost sold your entire collection of guitars to feed your habit? To lose your four-and-a-half-year old son in a tragic fall down 49 storeys? Can anyone bounce back from such unspeakable tragedy?

There is one man who did. The world calls him God. And his name is Eric Clapton.

Eric was born to 16-year-old Patricia and Edward Fryer, a military man, on March 30, 1945. Fryer was drafted to war before Clapton's birth and then returned to his native Quebec, Canada. Clapton was then brought up by his grandparents. He grew up believing that his grandmother Rose and her husband, Jack Clapp, were his parents.

And that his mother was actually his older sister:

An acoustic guitar that he received for his thirteenth birthday hooked him onto music. And the rest, as they say, is history. Clapton practically taught himself music, listening to records and learning to play the chords. He developed a deep interest in the Blues (largely considered the music of the black people) and with time, became proficient in it. He had stellar careers with bands like The Yardbirds, John Mayall and the Bluesbreakers, Cream and more, before finally embarking on a solo career. Eric was a prolific guitar man and over time, evolved his own unique style that drew thousands and millions of fans worldwide. Graffiti proclaiming "Clapton is God" began to come up across the UK, and was a testament to the man's popularity and his skill.

But through fame and fortune, Eric had his demons. He struggled for

years with a heroin addiction, even taking a couple of years off from performing to deal with it. There are stories told of how Clapton once passed out on stage in the middle of a performance in 1971. He was revived on stage, and carried on with his performance. And yet, as he began to win over his drug addiction, his dependence on alcohol gradually grew. There are accounts of Clapton beginning to sell off his possessions to feed his habit. According to one, it came down to his almost selling his most famous (and most prized) possession—a black Fender Stratocaster that he had christened "Blackie".

But the turning point came in 1991. Four-year-old Conor, Eric's son with Italian actress Lory Del Santo, fell from the 53rd floor of a New York high-rise. Eric, who was turning his life around, had just taken out his son by himself for the first time the day before, and was due to arrive to pick Conor up for another day out. The boy, apparently excited to see his papa, was running around the apartment and fell out of a window that a janitor had left open as she cleaned.

Eric wrote the song, "Tears in Heaven" as a tribute to Conor. At that time, Eric was sober for three years. After Conor's death, Eric, completely shattered and overcome with grief, redoubled his efforts to stay sober. In 1998, he established Crossroads—a rehabilitation center in Antigua for people that were struggling with addiction. Today, he's actively involved with Crossroads, campaigning to help people overcome addiction and spearheading The Crossroads Festival to raise money and awareness.

Does he regret or wish away all his addiction days? He said this in an interview to NPR: "I don't know that I can honestly regret any of it safely," he said, "because it's brought me to where I am. My life would not be the same, and I would not have what I have today, were [it not] for the fact that I went through all this stuff."

NOTE 42: EMPLOYEE BENEFIT OBLIGATIONS

The Company has classified the various employee benefits provided to employees as under:

INR MILLION

I Defined Benefit Plans	March 31, 2022	March 31, 2021
Gratuity		
Non-Current	13.98	13.14
Total	13.98	13.14

A Significant assumptions :

The significant actuarial assumptions were as follows :

Particulars	March 31, 2022	March 31, 2021
Discount rate	7.10% p.a.	6.75% p.a.
Salary escalation rate	6.50% p.a.	6.50% p.a.
Retirement age	58 years	58 years
Mortality rate	Indian Assured Lives Mortality (2012-14) Ultimate Mortality Rates	Indian Assured Lives Mortality (2012-14) Ultimate Mortality Rates

B Risk Exposure

Through its defined benefit plan, the Company is exposed to a number of risks, the most significant of which are detailed below:

Life expectancy:

This is particularly significant where inflationary increases result in higher sensitivity to changes in life expectancy.

Future salary increase and inflation risk:

Since price inflation and salary growth are linked economically, they are combined for disclosure purposes. Rising salaries will often result in higher future defined benefit payments resulting in a higher present value of liabilities especially unexpected salary increases provided at management's discretion may lead to uncertainties in estimating this increasing risk.

Asset-Liability mismatch risk:

Risk arises if there is a mismatch in the duration of the assets relative to the liabilities. By matching duration with the defined benefit liabilities, the Company is successfully able to neutralize valuation swings caused by interest rate movements. The Company ensures that the investment positions are managed within an asset-liability matching (ALM) framework that has been developed to achieve long-term investments that are in line with the obligations under the employee benefit plans.

II Defined Contribution Plans

During the year, the Company has recognised the following amounts in the Statement of Profit and Loss :-

INR MILLION

	For the year ended	
	March 31, 2022	March 31, 2021
Employers' Contribution to Provident Fund	11.93	8.11

(Gain)/loss from change in financial assumptions	(0.65)	-	(0.65)
Total amount recognised in Other Comprehensive Income	0.94	-	0.94
Benefits paid	(2.04)	-	(2.04)
March 31, 2022	13.99	0.01	13.98

ii) The net liability disclosed above relates to funded plans are as follows:

Particulars	INR MILLION	
	March 31, 2022	March 31, 2021
Present value of funded obligation	13.99	13.15
Fair value of plan assets	0.01	0.01
Surplus of funded plan	13.98	13.14

iii) Sensitivity analysis

The sensitivity of defined obligation to changes in the weighted principal assumptions is:

Assumption	Impact on defined benefit obligation March 31, 2022	
	%	Rs
Discount rate		
0.50% increase	(6.10)	(13.13)
0.50% decrease	6.70	14.92
Future salary increase		
0.50% increase	6.40	14.88
0.50% decrease	(6.00)	(13.15)

Assumption	Impact on defined benefit obligation March 31, 2021	
	%	Rs
Discount rate		
1.00% increase	(12.45)	(1.64)
1.00% decrease	15.11	1.99
Future salary increase		
1.00% increase	14.99	1.97
1.00% decrease	(12.59)	(1.65)

The above sensitivity analysis is based on a change in assumption while holding all other assumptions constant. In practice, this is unlikely to occur and changes in some of the assumptions may be correlated. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions the same method (present value of defined benefit obligation calculated with the Projected Unit Credit Method at the end of the reporting period) has been applied as when calculating the defined benefit liability recognised in the balance sheet. The method and types of assumptions used in preparing the sensitivity analysis did not change compared to the prior period.

The following payments are expected contributions to the defined benefit plan in future years:

Particulars	INR MILLION	
	March 31, 2022	March 31, 2021
Less than a year	0.75	0.24
Between 1- 2 years	1.92	0.31
Between 2- 5 years	1.13	1.78
Over 5 years	2.40	37.26
Total	6.20	39.60

Capital Management:

The Company's objectives when managing capital are to:

- safeguard their ability to continue as a concern, so that they can continue to provide returns for shareholders and benefits for other stakeholders, and

Financial risk management

The management of the Company has implemented a risk management system that is monitored by the Board of Directors. The general conditions for compliance with the requirements for proper and future-oriented risk management within the Company are set out in the risk management principles. These principles aim at encouraging all members of staff to responsibly deal with risks as well as supporting a sustained process to improve risk awareness. The guidelines on risk management specify risk management processes, compulsory limitations, and the application of financial instruments. The risk management system aims at identifying, analyzing, managing, controlling and communicating risks promptly throughout the Company. Risk management reporting is a continuous process and part of regular Group reporting. In addition, our Corporate Function Internal Auditing regularly checks whether Company complies with risk management system requirements.

The Company is exposed to credit, liquidity and market risks (foreign currency risk and price risk) during the course of ordinary activities. The aim of risk management is to limit the risks arising from operating activities and associated financing requirements by applying selected derivative and non-derivative hedging instruments.

Credit risk

The Company is exposed to credit risk from its operating activities (primarily trade receivables) and from its financing activities, including deposits with banks and other financial instruments. The balances with banks, loans given to employees, security deposits are subject to low credit risk since the counter-party has strong capacity to meet the obligations and where the risk of default is negligible or nil. Hence, no provision has been created for expected credit loss for credit risk arising from these financial assets.

Trade receivables

Credit risk arises from the possibility that customer will not be able to settle their obligations as and when agreed. To manage this, the Company periodically assesses the financial reliability of customers, taking into account the financial condition, current economic trends, analysis of historical bad debts, ageing of accounts receivable and forward looking information.

Export related trade receivables are fully secured under the Export Credit Guarantee Corporation Scheme and therefore the Company is not exposed to significant credit risk.

The provision for expected credit loss is recognised on the basis of life-time expected credit losses (simplified approach). An expected loss rate is calculated at each year-end, based on combination of rate of default and rate of delay. The Company considers the rate of default and delay.

There is no significant expected loss recognised.

Expected credit loss:

Liquidity risk

Liquidity risk is the risk that the Company is unable to meet its existing or future obligations due to insufficient availability of cash or cash equivalents. Managing liquidity risk, and therefore allocating resources are some of the central tasks of the Company's management. In order to be able to ensure the Company's solvency and financial flexibility at all times, credit limits and cash and cash equivalents are reserved on the basis of perennial financial planning.

Market risk

Market risk is the risk that fair values or future cash flows of non-derivative or derivative financial instruments will fluctuate due to changes in risk factors. Among market risks relevant to the Company are foreign currency risk and price risks. Associated with these risks are fluctuations in income, equity and cash flow. The objective of risk management is to eliminate or limit emerging risks by taking appropriate precautions, especially by applying derivatives. The application of derivatives is subject to strict controls set up on the basis of guidelines as part of regular reporting. Various measures are used to mitigate or eliminate the risk of fluctuations in the fair value of future cash flows from financial instruments due to market changes. These mainly include foreign currency forward contracts with banks. The use of derivative financial instruments is extensively monitored, with checks being carried out on the basis of policies in the framework of regular reporting.

Foreign currency risk

The international nature of the Company's business activities generates numerous cash flows in different currencies especially in USD and EURO. Hedging the resulting currency risk exposures is an essential part of the Company's risk management. To contain the risks of numerous payment flows in different currencies, in particular USD and EURO, the Company follows group wise policies for foreign currency management.

The Company does not have any material exposure to foreign currency at the balance sheet date.
