about us:

Since 1947, The Bulletin of the Atomic Scientists has maintained a Doomsday Clock – a symbol that represents the likelihood of a man-made catastrophe. It represents the Bulletin’s opinion on how close the world is to a global catastrophe, thanks to unchecked technical and scientific advances. Midnight represents that moment when catastrophe strikes. Of course, nuclear risk and climate change are the major contributing factors to the clock’s march toward midnight.

In January 2021, the clock moved to 100 seconds to midnight.

Yes, climate change is a real and present danger with governments, the UN and concerned citizens all jumping in to prevent that clock from hitting midnight.

And yet, it’s not all doom and gloom. There are rays of hope. Those little successes – however small – that show us we’re on the right path. Maybe all the damage can never be reversed. Maybe the planet can never go back to its pristine state. But maybe we can slow that clock down. Maybe we can push it back to 120 seconds from midnight.

This edition of our Annual Report then, celebrates those small successes. Those little stories of people and organizations reclaiming our planet.

OUR STORY

Emmbi Industries was started in 1994 by first-generation entrepreneurs, Makrand and Rinku Appalwar

At a time when it had become a norm to study and settle abroad, Makrand and Rinku's love for the country made them stay back. Hailing from Chandrapur in Maharashtra, which is a cement-manufacturing hub, Makrand saw an opportunity in manufacturing industrial grade polymer bags. Makrand and Rinku believed that polymers, if used correctly, had the potential to deliver the greatest service to mankind. What began as a small trading enterprise in Makrand's living room, has transformed into India's most valued polymer processing company. One thing that has remained constant, though, is our vision of using polymers for a brighter world. From being the pioneers of recycle FIBCs to creating the world's most affordable water conservation system, we have always used our innovative ideas to make communities happier and brighter.

1994 -1997

1994: Emmbi Polyarns Limited was registered as a Private Limited organization. The seeds to creating a brighter tomorrow were sown.

1994-1997: We completed the construction of Site- Emmbi's first manufacturing unit.

July 1997: We initiated the first production run at Site, which was completed on August 2, 1997.

2001 - 2004

2001: Emmbi introduced heat stable packaging, that can withstand temperatures up to 120° C.

2004: Emmbi created Poly-Lite Packaging for Tea for the first time in India.

2007 - 2010

2009: Emmbi developed a cattle-safe Canal Liner. While still a niche product, this set the stage for creating world-changing products in the agricultural space, later.

2010: Emmbi was listed on the two major stock exchanges in India - NSE and BSE.

2015 - 2017

2015: We launched our Emmbi Innovation Lab to drive innovations. Over the next 2 years, we applied for 14 patents and our exports topped INR 1 billion.

2016: We entered the agricultural consumer business with the launch of our brand, Avana - focused on putting farmers first through affordable water conservation.

2017: We developed Emmbi CleanTec, a facility for food and pharma-grade manufacturing.

STEP EVERY COUNTS

1997 - 1999

1997: We launched our first PWS-based packaging solution for the Consumer Goods market, as a replacement for the, then common, Paper Corrugated Boxes.

1999: Emmbi became India's First ISO 9001 certified company in the woven polymer sector for design & manufacturing!

2004 - 2006

2005: Emmbi initiated its first largescale expansion, to create a capacity of 6,000 MT Per annum. This was the first in a series of capacity expansions that Emmbi would undertake.

2006: We took our first steps to becoming a global leader, with the production of FIBCs for global clients. We also commissioned Janaki-our second unit.

2011 - 2014

2010-2012: Ramprya and Vadehi units were constructed. We tripled our capacity to 18,200 MT per annum!

2013: Emmbi pioneered the concept of single-homopolymer manufacturing design to make one of the world's first "Green" FIBCs.

2018 - 2023

2019: We created Jassanchay Super, the world's first blue pond lining designed to improve farmer income through aquaculture.

2021: We launched 6 new products in the agri-inputs space, moving Avana from a consumer durables co. to becoming a trusted player in small-hicket agri-inputs.

2022: Today, we loom to the next horizon, transforming ourselves into a global business that constantly brightens lives in all the communities we operate in.

BRIGHTER EVERY WAY

Our vision is to create a brighter world for all our stakeholders

Brighter for our Customers:

Whether it is their bright and colorful pattern or legends of the Genie with magical powers, traditional Arabian lamps have held the mystique of bringing good fortune and riches to their owners. At Emmbi, we aim to do the same by thinking differently, which helps us add maximum value to our customers and their business. At Emmbi, we believe that it's not just our products but the buying experience in its totality, that can make a difference to our customers which is why, we bring cutting-edge, cross-category knowledge to the table. This, coupled with the best of production techniques, a lean manufacturing philosophy and a near Six-Sigma level of operations go a long way in brightening our customers' business.

Brighter for our Employees:

Thomas Edison's invention has perhaps single-handedly changed the course of many-a-lives, and history itself. The humble table lamp is a symbol of the hard work and toil that millions of working-class individuals put in, in the quest for a better lifestyle. At Emmbi, we do our bit to brighten our employees' lives. We do this through our various Human Resource policies and programmes that encourage independent and creative thinking, an entrepreneurial spirit and active contribution to ideas. For more information, visit our Careers page.

Brighter for our Partners:

Traditional earthen lamps are used in the annual 'Chopda Pujan' that the Indian business performs, during Diwali. Businessmen pray to the god of wealth, for greater prosperity. On its part, Emmbi helps spread prosperity to our partners with a raft of initiatives – from implementing the most modern ERP systems to exercising total transparency in our dealing and automating our buying processes. Little wonder then, that a majority of the partners we work with – whether national or international – have continued to be our partners for as long as Emmbi has existed.

CHAIRMAN'S ADDRESS 2023

YEAR OF SUSTAINABILITY

Dear Shareholders,

On behalf of the Board and the Employees of Emmbi, let me warmly welcome you to the 29th Annual General Meeting of the Company and thank you for being a part of the Emmbi journey. I am a firm believer that the private sector in addition to playing a meaningful role to all stakeholders, should also adapt and evolve itself to the structural changes happening across the globe. Whilst tectonic shifts are happening be it in terms of remote work, application of Artificial Intelligence etc.; there also is a conscious and concrete developments in the fields of Sustainability. I can proudly state that, your Company is ahead of the curve when it comes to not just adapting the best practices, but also turning itself into a pioneer in the field of using Recyclable materials; Fiscal '23, can be attributed to **'Sustainability'**.

The Indian Economy experienced a slower growth at 6.30%, on account of the global headwinds be it the conflict in Eastern Europe, elevated Crude Prices, Supply-Side bottlenecks and tightening financial conditions. The World Economy witnessed a muted 3.20% growth, high inflation in the Western World, China's lockdown measures, had a dampening effect in businesses across Emerging and Developing Economies. The outlook for the coming year is expected to be better, with a fall in inflation, easing of monetary conditions and reopening of China. The Indian market, is better insulated than other emerging markets and poised to grow upwards of 6%, fueled by a strong domestic consumption.

2023 – Year of Sustainability @Work, translating to Revenues

In fiscal 2023, we remained at the Rs. 4 bn mark in terms of Revenues, Exports were at Rs. 2459.25 Mn, Domestic Sales at Rs. 1894 Mn and the pivoting point was that we launched Reclaim 30©; a specialty fabric made up of 30% recycled polymers.

We have always insisted that growth should always be sustainable and this is possible through a mix of continuous innovation, focus on operating metrics and launching new products and solutions.

New Product – Reclaim 30

Our initial embarkment with Reclaim 30©, has gained traction within the UK and other markets as well resulting us investing in and setting up a manufacturing line only for recycled products. We are of the firm belief that the demand for these products would be at a much faster pace and the Company is positioned to take advantage in the coming years.

We once again thank all our stakeholders for the faith entrusted upon us.

Warm Regards,

Makrand M. Appalwar**Chairman & Managing Director****Date: 30th May, 2023****Place: Mumbai**

HOPE FOR THE OZONE HOLE

Since the 1970s, scientists began to notice a steady depletion in the stratospheric ozone that surrounds our planet. This ozone layer prevents the harmful wavelengths of UV radiation (primarily UVB) from passing through the earth's atmosphere. Amongst other things, this UV radiation causes skin cancer, sunburn and permanent blindness.

Research led scientists to zero in on the cause of this depletion in ozone, called the 'ozone hole' – manufactured chemicals, especially manufactured halocarbon refrigerants, solvents, propellants, and foam-blowing agents (chlorofluorocarbons, or CFCs, HCFCs, halons) – these are referred to as ozone-depleting substances (ODS). The concerns over UVB radiation led to the adoption of the Montreal Protocol in 1987 and in 1989, these harmful chemicals were banned.

Since then, the Montreal Protocol is reviewed every four years. The ozone layer stabilized by the mid 1990s and began to recover, albeit slowly, in the 2000s.

And now, the good news: a 2018 study by the UN states that the ozone layer is recovering at a rate of 1 to 3 percent per decade. The

report stated, "The Antarctic ozone hole is recovering, while continuing to occur every year. As a result of the Montreal Protocol much more severe ozone depletion in the polar regions has been avoided." The Antarctic Ozone Hole was initially expected to gradually close and return to 1980 levels by 2060. The UN Environment and World Meteorological Organization's report stated, "Evidence presented by the authors shows that the ozone layer in parts of the stratosphere has recovered at a rate of 1-3 percent per decade since 2000... At projected rates, Northern Hemisphere and mid-latitude ozone is scheduled to heal completely by the 2030s followed by the Southern Hemisphere in the 2050s and polar regions by 2060."

Challenges still persist. A 2021 study by the Copernicus Atmosphere Monitoring Service said that the annual ozone hole was growing bigger and the 2021 ozone hole was is now among the 25% largest in their records since 1979. Hopefully, with CFCs being phased out completely by 2030, the pace of healing shall improve. There is still some hope left for the planet.

Company has expanded its presence in 60+ countries which has resulted healthy growth in limited impact on the territory of operation.

HUMAN RESOURCE DEVELOPMENT

Companies management team is focused on creating the best environment for the enthusiastic and dedicated workforce of Emmbi. Many New Programs and Work patterns were introduced during the year to enhance the "experience of work".

We continue to align the skill sets and capabilities of our current workforce, and the talent available in the market with the organization's ongoing and future business plans, to maximize return on investment and secure continual success. We also emphasize this through the blue colour in the company's logo, as it reflects the loyalty and trust that we bring to our blue collared workforce.

Our continued self-development initiatives include relevant training programmes and seminars, that addresses the needs of the workforce as well as the senior management.

QUALITY INITIATIVES

Man-Machine interphase will only produce the accuracy and skill required for being a successful company in the coming years. Specially Manufacturing sector is changing its shape using modern technology tools like IoT (Internet of things) and ML (Machine Learning). The whole new concept of industry 4.0 will be practiced and implemented in Emmbi during coming years of operation.

This will also augment the project of Lean manufacturing which was adopted during past few years to control and make best use of the Human Capital. We are successfully practicing the same and the result can be seen in the increase of defect free production in year after year. The efforts of Lean Enterprise Management have led to higher productivity and increased profitability.

The above initiatives and our continuous adherence to strict quality standards has created tangible as well as intangible benefits to strengthen brand Emmbi.

MATERIAL CHANGES AND COMMITMENTS, AFFECTING THE FINANCIAL POSITION OF THE COMPANY WHICH HAVE OCCURRED BETWEEN THE END OF THE FINANCIAL YEAR OF THE COMPANY TO WHICH THE FINANCIAL STATEMENTS RELATE AND THE DATE OF THE REPORT

We have broken the comments into Four Major Steps which will cover all the aspects connected to Capital and Financial resources, Profitability, Liquidity, Ability to service debt.

- 1) Supply Side Management: We have ensured that for all the critical and non-critical items minimum 3 suppliers are maintained, and a special focus is given in ensuring geographic separation to all supply sources. This will spread the Risk of common failure from all the suppliers at the same time. We are also maintaining slightly higher stock than our normal inventory level to avoid any stock out condition.

Kindly note that Emmbi continues its policy of non-speculative operations & we always do the procurement of inputs on the receipt of confirmed sales order.

- 2) Demand Side Management: To maintain and create new demand we have started various Short Term and Long Term, Marketing and Sales initiatives, Like reaching out to every customer and explaining them about the various products of Emmbi which they are not presently using. We have added and around six new customers in four new geographies during this financial year. Also the new launch of Globally Patented (Filled) "Hyperbolic FIBC" has given a net edge to companies technical abilities giving company an ability to reach up to more buyers in the existing geographies

During the Year under consideration company was able to produce and sale around 15 % of its production using 30 % Recycled content in it. It is sold under the registered brand "Reclaim 30" in the global market.

- 3) Manufacturing Side Management: In the present time availability of the Rightly Skilled Employees in one of the largest challenges. Presently all other parameters of the Manufacturing are under control.
- 4) Liquidity Management: Company is in a very stable financial condition. In the present situation two of our banking partners have approved emergency COVID funding.

The Company was remarkably successful in maintaining its Debtor realization. There have been no delays in the realization from the exports. Also note that entire Export debts are insured by party wise insurance by ECGC. Domestic Debtors has also shown a comfortable payment situation

Other financial arrangements, assets, internal financial reporting and control, supply chain, demand for Company's products/services:

- 1) The Company has efficient systems in place for Internal Financial reporting and control. Even during the period of lockdown with work from home, all reporting systems worked seamlessly without any disruption.
- 2) The supply chain was the cause for concern during the initial lockdown period, however, gradually this issue has been sorted out. Going forward the company is confident of coming back to normal shortly.
- 3) The Company's export order book remains robust and demand for the Company's products has not slackened leading us to believe that the company is far better placed to serve its global customers.

TOGETHER, FOR THE FORESTS

If there is one singular event that can be pointed to, to trace the beginning of environmentalism in India, most might agree that the Chipko Movement of 1973 was that event. Sundarlal Bahuguna (9 Jan, 1927 – 21 May, 2021) a key participant in the movement, was easily one of the most prominent environmentalists in the country. The Chipko Movement is perhaps the best example of what can be achieved when citizens begin to come together for the planet.

Inspired by Jayaprakash Narayan and the Sarvodaya movement, the Dasholi Gram Swarajya Sangh was set up in 1964, with an aim to set up small industries using the resources of the forest. Their first project was a small workshop making farm tools for local use. Here they had to face restrictive forest policies, a hangover of colonial era still prevalent, as well as the "contractor system", in which these pieces of forest land were commodified and auctioned to big contractors, usually from the plains, who brought along their own skilled and semi-skilled laborers, leaving only the menial jobs like hauling rocks for the hill people, and paying them next to nothing. On the other hand, the hill regions

saw an influx of more people from the outside, which only added to the already strained ecological balance. The 1970 Alaknanda flood served as an effective catalyst and, through their relief work, members of the DGSS began to grasp the relationship between deforestation and the incidence of floods.

The government meanwhile, announced an auction scheduled in January 1974, for 2,500 trees near Reni village, overlooking the Alaknanda River. In March 1974, the men of Reni village and DGSS workers called to a meeting with the government, supposedly to discuss compensation. With the members away, labourers arrived by the truckload in Reni to start logging operations. A local girl rushed to inform Gaura Devi, the head of the village Mahila Mangal Dal. Gaura Devi led 27 of the village women to the site and confronted the loggers, hugging the trees to stop them from being felled. They women kept an all-night vigil guarding their trees against the cutters. News of this spread to neighboring villages and the rest, as they say, is history.

Sundarlal Bahuguna was awarded the Padma Vibhushan in 2009.

ANNEXURE 2 TO BOARD'S REPORT

Risk Management

Business Risk

Unforeseen factors, be it related to industry, regulations, and/or the economy could affect business in an adverse manner, that could lead to impairment to income and capital. Also in a capital-intensive industry, any downward swings in revenues could be detrimental to earnings.

Emmbi is not in an industry that is overtly exposed to governmental regulations, and the fact that we have been profitable since inception and is a regular dividend payer mitigates the business risk to a large extent. Our capacity utilisation taking into account the expansion to 27,440 mtpa stands at 78%. We have used a mix of out-sourcing, automation, and adoption of Industry 4.0, to ensure the best distribution of fixed costs. We consciously ensure that our production is not concentrated on one unit and is spread across five locations to mitigate any eventuality. We always maintain cordial and healthy relationship with workers, ensuring their safety and wellbeing.

Financial Risk

Emmbi's capital structure is very conservative, and its cash flows adequate to meet obligations when due. Also the fair value of assets, far exceed the book value providing additional buffer in the event of a remote outlier. We are also rated investment grade with a positive outlook on our debt, and are confident that in the next few years this would only improve given the growth in our business. In addition, we do not rely on one lender, and have multiple banking lenders, ample lines, and a good standing with all the lenders.

Liquidity Risk

We maintain adequate cash at all times. Despite making some purchases on an advance payment basis we have ample liquidity, and do not lock up our operating cash flow in non-core or unproductive assets. Inventories and debtors are managed prudently, and impairments negligible. Also the working capital cycle has shown a continual improvement over the past few years, and currently is under 108 days. We maintain a healthy dividend pay out which cements that Emmbi is a very liquid company.

Single Product Risk

Emmbi's product line is well diversified with sales to over 200 clients in 60+ countries across 40 products. No single client contributes to more than 5% of total revenues. We have strategically reduced our dependence on low margin products. Our foray into the B2C has also decoupled our concentration risk, where the consumers are more granular in nature.

Single Geography Risk

Emmbi exports to 60+ countries and is not exposed to a single market or its vagaries.

Foreign Exchange Risk

Emmbi has an internal policy to hedge all its export revenues, and it has no exposure to foreign currency borrowings. The company also does not trade, or speculate in the foreign currency market or make any opportunistic positions.

Systems & Enterprise Wide Risk

We are compliant with best practices, as can be noted from the continual certifications, and the periodic audits. The Management at Emmbi does not view risks in silos, however analyse, how it can impact the whole organisation. The fact that Emmbi is an accredited as an R&D House by the Government of India also emphasises that our risk management practices have been approved and commended by the Government.

Pandemic and Unforeseen Events

Whilst there are events, whose probability of occurrence may be very-low, however the impact can be very-severe, threaten disruptions to both earnings, and capital. Emmbi ensures that in case of such a rarity, its prudent way of decision making, policies, financial resources, flexible manufacturing, and experience of the Management, makes it on a better footing to handle such events.

MANAGEMENT DISCUSSION AND ANALYSIS

Forward Looking Statements

The report contains forward-looking statements, identified by words like 'plans', 'expects', 'will', 'anticipates', 'believes', 'intends', 'projects', 'estimates' and so on. All statements that address expectations or projections about the future, but not limited to the Company's strategy for growth, product development, market position, expenditures and financial results, are forward-looking statements. Since these are based on certain assumptions and expectations of future events, the Company cannot guarantee that these are accurate or will be realised. The Company's actual results, performance or achievements could thus differ from those projected in any forward-looking statements. The Company assumes no responsibility to publicly amend, modify or revise any such statements on the basis of subsequent developments, information or events.

Economy and Outlook

The recent WEO update (World Economic Outlook report by IMF, April 2023) suggests that global growth is expected to slow-down to 2.90%, (3.20%) for the calendar, and expected to improve to 3.10% in 2024. The Asian economies would be the major drivers, with India expected to grow at upwards of 6%, and China at 5%. Regional Banks in the US, high inflation could impact the US economy adversely; in most economies, especially Europe addressing cost-of-living, and dis-inflation seem the talking points, amongst policy-setters. Higher interest rates, and Russia-Ukraine tensions continue to weigh down the global economy, though inflation is expected to fall to 6% levels, before settling down to pre-covid levels of 3.50%.

India faced tough headwinds since the Russia-Ukraine conflict, elevated crude-oil prices, supply disruptions - on account of both the lack of shipping containers, and supply-chain issues, and tightening financial conditions. Government measures in terms of Capital Expenditures partly offset the slowdown in private consumption and led to India overtaking UK as the fifth largest economy in the world. India is less exposed to international trade flows and is reliant more towards domestic consumption. India's current account remains in a comfortable, and foreign exchange reserves, more than adequate. The geopolitical situation also favours India in benefitting as a global supply-chain destination. The digitisation reforms and creation of platforms have led to financial inclusion across India's diaspora, would be a major driver in the medium term. The diverse economy, positive governmental policies and reforms, improving socio-economic scenario, increased urbanisation, higher disposable incomes, a stable government has made it an attractive investment destination.

Sector Performance

The world is witnessing an exponential growth in the usage and consumption of polymers. Production that used to range at 340 million tons p.a. in 2010, crossed 550 tons the turn of the decade (a CAGR of 10%). The completely man-made nature of polymers makes innovation and creation of new materials and applications limitless. The Packaging sector in India is estimated at over \$415 billion, and this is expected to exhibit around 6% growth in the next five years. While the size of the Global Polymer industry is expected to reach around 800 billion by 2027 with CAGR of 5.5 %.

Despite being one of the world's largest economies, India lags in per capita the consumption of polymers which is just under 10kgs vis-à-vis 100 kg in developed countries and World Average 30kgs.

We are proud to state that we have over 30 individual products that cater to a client base of over 200, spread across 60 + countries. The best part is though the products are used by different countries and multiple industries, the mother of all products remain in "Technical Textile". This unique ability to remain present in many industries while maintaining the economies of scale.

Business Segments and Geographies

B2B Businesses

International Business

Revenues from Exports stood at Rs. 2459.25 million, notably across 60+ countries. The new wave of Sustainable packaging is giving good lift to Emmbi's Reclaim30 range of products, countries like US, Spain and Italy have already implemented hard regulations for the usage of polymer based packaging and usage of recycled material based packaging is incentivised by favourable duty structures. Emmbi's investment in reclaim range of products will definitely yield much better results in year to come.

Domestic Business

Domestic business stood at Rs. 1894.00 million for fiscal '23. We have been prudent in growing this segment, despite it providing a predictable stream of revenues, for we firmly believe that resources should be allocated to business lines or products, that helps in maximising ROCE. Moreover, this is a highly competitive segment, where the buyers are highly price elastic. This coupled with the fact that Emmbi's manufacturing facilities are fungible, and we saw a margin driven growth in the export business, led us to focus on the International Segment.

B2C (Avana)

Consumer Durables

The growth in agriculture sector seems muted, however Emmbi's business to the agricultural sectors stands at Rs. 722.35 million. We are now well entrenched in Maharashtra, Rajasthan, Madhya Pradesh, Karnataka and made decent forays into Uttar Pradesh, Haryana, Andhra Pradesh, and Telangana. The business which started with making reservoirs for the agriculture & farming sector is now also very popular choice for the Commercial Fishing Ponds for Fish & Aquaculture ponds for Shrimp farming New application of Industrial wastewater treatment & storage tanks is becoming more and more popular with governments initiative of increased care from water pollution

Consumer Goods

Revenues for fiscal '23, despite the uncertain situation in Eastern Europe, and High Commodity Prices, seem sustainable on account of the following,

1. Introduction and Spread of Reclaim 30© range of products
2. Consistent Growth in International demand of products under Advance Composites & Speciality Packaging.
3. Improved capacity utilisation across all the manufacturing units.
4. Emmbi's innovation, track record, and distribution network makes it a first-choice provider for existing clients and serves as a referral base.
5. 'Avana' that has made a mark in few states, is expanding across Indian and introducing newer products, that have found tremendous acceptance.
6. The Government's initiatives for improving farmer's incomes, and a greater thrust across rural India on Pond manufacturing.
7. The Honourable PM's impetus on creating 50,000 ponds across India over the next few years, is very positive for Emmbi. We are today the World's largest pond lining company, and given our quality, and track record we are confident of winning substantial share of this business.
8. Consumption Shift in B2C, the increased e-commerce (Avanamart) has resulted a new revenue stream for the company

Vertical-wise Breakdown

Figures as on 31.03.2023

Emmbi's Manufacturing Operations: Plant Capacity and Utilisation

Plant capacity remained at 27,440 MT/ Annum, and Capex spend, was on routine maintenance.

Industry 4.0 standards (IoT), and Robotic Process Automation (RPA) have increased operational efficiencies, improved product technicalities, and reduced wastage to a near zero levels. A Special AI based manufacturing tools have greatly helped to control the manufacturing "Lot Sizes" thereby reducing the non salable surplus material. This helped us to control the material consumption to great extent.

Inventories Management

Emmbi's strategy of managing business in a non-speculative nature, translates down to its inventory management policies. We always make it a point to match the order pipeline to the inventory levels. Procurements of raw material is simultaneous to order booking, and that way neither the fluctuations in the prices of crude oil, ocean fright or currency variation thereby its derivatives impact the income statement or capital in an adverse manner.

More-over the relationship between crude oil prices, and polymer prices is not entirely direct. Finally, it is the many stages derivative Polypropylene that goes into our products, and the actual impact of crude price constitutes only under 15% of the total product component.

Despite this linkage, we as a policy continue to apply effective hedge mechanisms.

Earnings

Our revenues stands at Rs 4353.25 million which was translated into an EPS of Rs. 4.67.

Quality and Adherence

We adhere to the latest international standards and believe in adapting the best practices in the industry, be it people, processes, quality of our products or internal systems. We are in the process of "Integrated Management System" (IMS) a customised combination of ISO 9001:2015, 14001:2015 and 45001:2018. We have also reduced waste by 50%, and we plan to become a 'zero' waste company over the next eight quarters. Company also runs a Certified AA Grade "Clean Manufacturing Facility" for food & Pharmaceutical grade materials. We are having multiple units certified by ISO 22000 for the "Industrial Clean" grade products. We are also "Kosher" & "Halal" certified. The best practices with the employees also helped us to get "Sedex" registration.

People and Processes

We continue in investing and developing existing talent, and source human resources when needed. We continue to conduct workshops on both technical, and soft skills, with the help of internally created teams, and external experts. We have in place a 'Whistle Blower' policy keeping in check with the best practices (Detailed in the Corporate Governance Section).

Information Technology

All our plants across the locations are integrated, and they in-turn communicate to the head offices, through various systems. We are one of the first to adopt Industry 4.0 standards that has led to process and operational improvements and getting translated into financial savings. Entire data of the company is securely stored and is accessible to all the authorised personal from remote locations.

Research & Development

Emmbi runs full-fledged R&D centre called "Emmbi Innovation Lab" for about past decade, accredited by the Department of Science and Technology, the Government of India. Our R&D department is staffed with a 30 member team. As a policy we allocate ~1.50% of revenues towards, research and product development. This not only helps us getting tangible benefits like tax breaks, VAT benefits, preferred bidder for Government projects, etc.

We also get invaluable intangible benefits such as visibility in the international arena, through government initiatives.

Emmbi Innovation Lab has been extremely successful in developing various Products & Processes which gave us an edge over our competition. We have filled 13 Product & 5 Processes Patents in the past decade. 2 Patents have been already awarded and balance are in the processes of getting vetted by the department.

FROM DISASTER TO SUSTAINABILITY

Mention the word “Chernobyl” and the three words that come to mind are Disaster, Death and Destruction. One of two worst nuclear accidents in human history (the second was Fukushima, in 2011), the No. 4 Reactor at the Chernobyl power exploded during a test in April 1986. In the secret emergency operation to put out the fires, 237 emergency workers were hospitalized, out of which 134 displayed symptoms of radiation poisoning. 28 of them died. Even after the fires were put out, the reactor continued to spew harmful radiation into the atmosphere. A large proportion of the contaminants landed in Byelorussia (now Belarus), about 16 kilometers away. A 10-km radius ‘exclusion zone’ was established around the plant and about 49,000 people were evacuated. Later, an additional 60,000 people were evacuated and the exclusion zone was increased to a radius of 30 kilometers. Pripjat, the city where the power plant was, turned into a ghost city, and lay largely forgotten.

But, in the three-odd decades since the disaster, something spectacular is happening in Pripjat. Devoid of humans, nature slowly began taking over with the concrete jungles being replaced by real ones.

Today, the Chernobyl Exclusion Zone (CEZ) covers an area of about 2,800 square kilometers in northern Ukraine. This represents mainland Europe’s third-largest nature reserve.

Plant Movement is perhaps the best example of what can be achieved when citizens begin to come together for the planet.

The pine plantations that were there in 1986 gave way to a much more biodiverse primary forests which are more resilient to climate change and can sequester more carbon.

And, with this increased biodiverse forest came more diverse animals, too. Rare species like the lynx and the vulnerable European bison have seen a resurgence. In the Belarussian part of the exclusion zone, researchers have found that boar, elk and roe deer populations boomed in the 10 years following the disaster. Wolves were also observed to have increased sevenfold.

The central part of the CEZ is now home to a major solar farm development. Wind farms are also being considered.

Chernobyl, the site of one of the worst nuclear accidents in human history, is now contributing significantly to a sustainable future.

INDEPENDENT AUDITOR'S REPORT

TO THE MEMBERS OF EMMBI INDUSTRIES LIMITED

Report on the Audit of the Financial Statements

Opinion

We have audited the accompanying financial statements of Emmbi Industries Limited ("the Company"), which comprise the Balance Sheet as at March 31, 2023, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows for the year ended on that date, and summary of the significant accounting policies and other explanatory information (hereinafter referred to as "the financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2023, the profit and total comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the financial statements in accordance with the Standards on Auditing specified under section 143(10) of the Act (SAs). Our responsibilities under those Standards are further described in the 'Auditor's Responsibilities for the Audit of the Standalone Financial Statements' section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the independence requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the following matter to be the key audit matter to be communicated in our Report.

Key Audit Matter

Revenue Recognition
-The Company recognises revenue from products when performance obligations are fulfilled at the time of dispatch.

For sale transactions in a certain period of time around the Balance Sheet date, it is essential to ensure that the control of goods have transferred to the customers. As revenue recognition is subject to management's judgement on whether the control of the goods have been transferred, we consider cut-off of revenue as a key audit matter.

(See Note 3.4 & Note 26 to the standalone financial statements)

Auditor's Response

In view of the significance of the matter we applied the following audit procedures in this area, among others to obtain sufficient appropriate audit evidence:

-We obtained an understanding of the revenue recognition process and tested the Company's controls around the timely and accurate recording of sales transactions.

-We tested the access and change management controls of the relevant information technology system in which shipments are recorded.

Information Other than the Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Company's annual report, but does not include the standalone financial statements and our auditors' report thereon. Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's Responsibility for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance including, total comprehensive income, changes in equity and cash flows of the Company in accordance with the Ind AS and other accounting principles generally accepted in India, including the Ind AS specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so. The Board of Directors are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements. As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional scepticism throughout the audit.

We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by Section 143(3) of the Act, based on our audit we report that:
 - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
 - c) The Balance Sheet, the Statement of Profit and Loss including Other Comprehensive Income, Statement of Changes in Equity and the Statement of Cash Flow dealt with by this Report are in agreement with the relevant books of account.
 - d) In our opinion, the aforesaid financial statements comply with the Ind AS specified under section 133 of the Act.
 - e) On the basis of the written representations received from the directors as on March 31, 2023 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2023 from being appointed as a director in terms of Section 164 (2) of the Act.
 - f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "**Annexure A**". Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls over financial reporting.
 - g) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended:

In our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the Company to its directors during the year is in accordance with the provisions of section 197 of the Act. The Ministry of Corporate affairs has not prescribed other details under section 197(16) which are required to be commented upon by us.
 - h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended in our opinion and to the best of our information and according to the explanations given to us:
 - i. The Company has disclosed the impact of pending litigations on its financial position in its financial statements.
 - ii. The Company doesn't have any long term contracts including derivative contracts requiring provision for material foreseeable losses.
 - iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company.
 - iv.
 - a) The Management has represented that, to the best of its knowledge and belief, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person(s) or entity(ies), including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;
 - b) The Management has represented, that, to the best of its knowledge and belief, no funds have been received by the company from any person(s) or entity(ies), including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries; and
 - c) Based on such audit procedures that we have considered reasonable and appropriate in the circumstances; nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) contain any material mis-statement
 - v. The dividend declared or paid during the year by the Company is in compliance with Section 123 of the Act.
2. As required by the Companies (Auditor's Report) Order, 2020 ("the Order") issued by the Central Government in terms of Section 143(11) of the Act, we give in "**Annexure B**" a statement on the matters specified in paragraphs 3 and 4 of the Order.

Annexure A

(Referred to in Paragraph 1(f) of the Report on Other Legal and Regulatory Requirements' in our report of even date)

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub Section 3 of Section 143 of the Companies Act, 2013 ("the Act")

1. We have audited the internal financial controls over financial reporting of Emmbi Industries Ltd. ("the Company") as of 31st March, 2023 in conjunction with our audit of the Ind AS financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

2. The Company's management is responsible for establishing and maintaining internal financial controls based on internal controls over financial reporting criteria established by the company considering the essential components of internal controls stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act 2013 ("the Act").

Auditor's Responsibility

3. Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing deemed to be prescribed under Section 143 (10) of the Act to the extent applicable to an audit of internal financial controls, both applicable to an audit of internal financial controls and, both issued by ICAI. Those Standards and the Guidance Note require that we comply with the ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.
4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risk of material misstatement of the Ind AS financial statements, whether due to fraud or error.
5. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial control system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

6. A company's internal financial controls over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

7. Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial controls over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March 2023, based on the internal controls over financial reporting criteria established by the Company considering the essential components of internal controls stated in the Guidance Note on Audit of Internal Financial Controls Over Financial reporting issued by ICAI.

Notes Forming Part of the Standalone Financial Statements For The Year Ended On 31st March, 2023.

NOTE: 1 COMPANY OVERVIEW

EMMBI INDUSTRIES LIMITED (“Emmbi” or “The Company”) is a public limited company incorporated and domiciled in India and has its registered office at Silvassa, UT of Dadra & Nagar Haveli and Daman & Diu, India. The Company has its primary listings on the BSE Limited and National Stock Exchange (India) Limited. The financials were authorized for issuance by the company’s Board of Directors and Audit Committee on May 30th, 2023.

The principal activities of the Company comprise of Manufacturing of HDPE & PP- Woven Polymer Based Products.

NOTE: 2 BASIS OF PREPARATION AND MEASUREMENT

2.1 Statement of Compliance

The Financial statements as at the end for the year ended March 31, 2023 have been prepared in accordance with the Indian Accounting Standards (“Ind AS”) notified under the Companies (Indian Accounting Standards) Rules, 2015 as amended.

2.2 Accounting Convention and Basis of Measurement

The financial statements have been prepared on the historical cost convention and on an accrual basis, except the following material items that have been measured at fair value as required by relevant Ind AS:

- i. Certain financial assets measured at fair value (refer accounting policy on financial instruments)
- ii. Defined benefit and other long – term employee benefits.

2.3 Functional and presentation currency

The financial statements are presented in Indian rupees, which is the functional currency of the company and the currency of the primary economic environment in which the company operates. All financial information presented in Indian rupees has been rounded to the nearest millions of rupees except share and per share data.

2.4 Use of Judgements, estimates and assumptions

The preparation of financial statements in conformity with Ind AS requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amount of assets, liabilities, income and expenses and the disclosure of contingent liabilities and contingent assets. Actual results may differ from these estimates. Estimates and underlying assumptions are reviewed on a periodic basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected.

Information about critical judgments in applying accounting policies, as well as estimates and assumptions in respect of following areas, that have most significant effect to the carrying amounts within the next financial year are included in the relevant notes.

- i. Useful Lives of property, plant and equipment and intangibles.
- ii. Measurement of defined benefit obligations.
- iii. Measurements and likelihood of occurrence of provisions and contingencies.
- iv. Recognition of deferred tax assets.

2.5 Operating Cycle:

Based on the nature of products / activities of the company and the normal time between acquisition of assets and their realization in cash or cash equivalents, the company has determined its operating cycle as 12 months for the purpose of classification of its assets and liabilities as current and non-current.

NOTE: 3 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

3.1 Property, Plant and Equipment (PPE)

- i. Property, plant and equipment are measured at cost less accumulated depreciation and impairment losses, if any.
- ii. The cost of property, plant and equipment includes those incurred directly for the construction or acquisition of the assets, and directly attributable to bringing it to the location and condition necessary for it to be capable of operating in the manner intended by the management.
- iii. The cost of major spares is recognised in the carrying amount of the item of property, plant and equipment, in accordance with the recognition criteria set out in the standard. The carrying amount of the replaced part is derecognized at the time of actual replacement. The costs of day-to-day servicing of the item are recognised in statement of profit and loss as incurred.

- iv. Depreciation on tangible assets including those on leasehold premises is provided under straight line method over the useful life of assets specified in Part C of Schedule II to the Companies Act, 2013 and in the manner specified therein, except in respect of dies and moulds which are depreciated over their technically estimated useful lives on straight line method.
- v. Depreciation methods, useful lives and residual values are reviewed at each reporting date and accounted as change in accounting estimate.
- vi. Each component / part of an item of property, plant and equipment with a cost that is significant in relation to the total cost of the item is depreciated separately only when it has a different useful life. The gain or loss arising from the de-recognition of an item or property, plant and equipment is included in statement of profit or loss when the item is derecognized.
- vii. Expenditure attributable / relating to PPE under construction / erection is accounted as below:
 - A. To the extent directly identifiable to any specific plant /unit, trial run expenditure net of revenue is included in the cost of property, plant and equipment.
 - B. To the extent work not completed to any specific plant /unit, is grouped under 'capital work-in-progress'.

3.2 Intangible Assets

- i. Intangible assets is recognised when it is probable that future economic benefits are attributable to the asset will flow to the enterprise and the cost of the asset can be measured reliably.
- ii. Acquired Brand and Knowledge Development Cost is recognized as intangible asset upon completion of development and commencement of commercial production.
- iii. Intangible assets are amortized on straight line method over their technically estimated useful lives.
- iv. Residual values and useful lives for all intangible assets are reviewed at each reporting date. Changes, if any, are accounted for as changes in accounting estimates.

3.3 Inventories are valued as under:

I) Raw materials, components, consumables and stores & spares	Cost or net realisable value, whichever is lower.
II) Work in progress and finished goods	Net realisable value or cost of materials plus cost of conversion and other costs incurred in bringing them to the present location and condition, whichever is lower
III) Consumable Spares	Cost or net realisable value, whichever is lower.

3.4 Revenue from contracts with customers

The Company derives revenues primarily from sale of HDPE & PP- Woven Polymer Based Products.

Ind AS 115 "Revenue from Contracts with Customers" provides a control-based revenue recognition model and provides a five step application approach to be followed for revenue recognition.

- Identify the contract(s) with a customer;
- Identify the performance obligations;
- Determine the transaction price;
- Allocate the transaction price to the performance obligations;
- Recognise revenue when or as an entity satisfies performance obligation.

Revenue Recognition

Revenue is measured at the fair value of the consideration received or receivable, taking into account contractually defined terms of payment and excluding central taxes or duties collected on behalf of the Government. Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured, regardless of when the payment is being made. Amounts disclosed are including Goods and Services Tax collected on behalf of the Government. However the GST collected has been shown as a deduction under the heading 'Revenue from Operations' and only the net Revenue from Operations has been stated in the Statement of Profit and Loss.

Sale of goods

- a. Inland sales have been accounted for at the time of dispatch of goods from the factory.
- b. Export sales have been accounted for at the time of dispatch of goods from the factory

3.5 Employee Benefits

i) Short term benefits:

All employee benefits falling due wholly within twelve months of rendering the services are classified as short term employee benefits. The cost of the benefits like salaries, wages, medical, leave travel assistance, short term compensated absences, bonus, exgratia, etc. is recognised in the period in which the employee renders the related service.

HAPPINESS IS CARBON-NEGATIVITY

Nestled in the Himalayas, sandwiched between India and China, the tiny kingdom of Bhutan is somewhat of a miracle and a beacon of hope in our fight against climate change. For, it's the world's only carbon-negative country. Said another way, Bhutan actually removes three times as much as CO₂ that it produces. Call it the world's green lung, if you will. But here's where it gets really interesting — all of this is happening despite increasing tourism. One of the ways foreigners can contribute to the country's conservation efforts is counterintuitive: by visiting the country.

Bhutan is known to be one of the world's happiest countries. It's also the greenest. And that's no coincidence. King Jigme Singye Wangchuck developed his signature Gross National Happiness index based on four pillars: sustainable development, environmental protection, cultural preservation, and good governance. Environmental protection is enshrined in their constitution, which states that a minimum 60% of Bhutan's total land should be maintained under forest cover for all time. The country even banned logging exports in 1999. "Our enlightened monarchs have worked tirelessly to develop our country,

balancing economic growth carefully with social development, environmental sustainability, and cultural preservation, all within the framework of good governance," Tshering Tobgay, Bhutan's Prime Minister said at a 2016 TED Talk.

Almost all the country's electricity comes from hydropower. It produces so much hydroelectricity that it sells it to neighboring countries, which Bhutan claims offsets another 4.4 million tons of annual CO₂ emissions. And Bhutan says that by 2025, increased hydroelectricity exports will let the country offset up to 22.4 million tons of CO₂ per year in the region. Aside from its protected forests, it has won world records for planting the most trees per hour: Bhutan's ratio of people to land mass is about the same as that of Switzerland, but with just a tenth of the population. It's slow path to development — its first road was only built in the 1960s, it opened up to foreign tourists only in 1974 and TVs were only allowed in 1999 — has meant that it grew in harmony with nature, rather than at odds with it. The world could learn a thing or two from this tiny country.

ii) Post Employment Benefits:

A) Defined Contribution Plans:

The contribution paid/ payable under provident fund scheme, ESI, scheme and employee pension scheme is recognised as expenditure in the period in which the employee renders the related service.

B) Defined Benefit Plans:

The company's obligation towards gratuity is a benefit plan. The present value of the estimated future cash flows of the obligation under such plan is determined based on actuarial valuation using the projected unit credit method. Any difference between the interest income on plan assets and the return actually achieved and any changes in the liabilities over the year due to changes in actuarial assumptions or experienced adjustments within the plan are recognised immediately in other comprehensive income and subsequently not reclassified to the statement of profit and loss.

3.6 Foreign Currency Transactions

- i. Transactions relating to non-monetary items and sale of goods/ services denominated in foreign currency are recorded at the exchange rate prevailing or a rate that approximates the actual rate on the date of transactions.
- ii. Assets and liabilities in the nature of monetary items denominated in foreign currency are restated at prevailing exchange rate as at the end of the reporting period.
- iii. Exchange differences arising on account of settlement/conversion of foreign currency monetary items are recognised as expense or income in the period in which they arise.

3.7 Current Tax and Deferred Tax

i) Taxation

Income tax expense represents the sum of the tax currently payable and deferred tax.

ii) Current Tax

The tax currently payable is based on taxable profit for the year. Taxable profits differ as reported in the statement of profit and loss because of items of income and expense that are taxable or deductible in other years and items that are never taxable or deductible. The company's current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

iii) Deferred Tax

Deferred tax is recognized on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all temporary differences to the extent that it is possible that taxable profits will be available against those deductible temporary differences can be utilized.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the assets to be recovered.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realized, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the company expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

Minimum Alternate Tax

Minimum Alternate Tax (MAT) credit is recognised as an asset only when and to the extent there is convincing evidence that the company will pay normal income tax during the specified period. Such asset is reviewed at each Balance Sheet date and the carrying amount of the MAT credit asset is written down to the extent there is no longer a convincing evidence to the effect that the Company will pay normal income tax during the specified period.

3.8 Borrowing Costs

- i. Borrowing costs incurred for obtaining assets which take substantial period to get ready for their intended use are capitalized to the respective assets wherever the costs are directly attributable to such assets and in other case by applying weighted average cost of borrowings to the expenditure on such assets. Post the commercial production or trial run, borrowing cost will be treated as expense for the year.
- ii. Other borrowing costs are treated as expense for the year.

3.9 Financial Instruments (Financial Assets And Financial Liabilities)

- i. All financial instruments are recognised initially at fair value. The classification of financial instruments depends on the objective of the business model for which it is held and the contractual cash flows that are solely payments of principal and interest on the principal amount outstanding. For the purpose of subsequent measurement, financial instruments of the company are classified into (a) Non-Derivative financial instruments and (b) Derivative financial instruments.
- ii. **Financial Instruments.**
 - A) Security deposits, cash and cash equivalents, employee and other advances, trade receivables and eligible current and non-current financial assets are classified as financial assets under this clause.

- B) Loans and borrowings, trade and other payables including deposits collected from various parties and eligible current and non-current financial liabilities are classified as financial liabilities under this clause.
- C) Financial instruments are subsequently carried at amortized cost wherever applicable using effective interest rate method (EIR) less impairment loss.
- D) Transaction costs that are attributable to financial instruments are recognized at amortized cost which are included in the fair value of such instruments.
- E) Investments in equity shares, including investment in foreign company and LLP, are measured at fair value through profit and loss as per Ind AS 109.

3.10 Impairment

i. Financial Assets

- A) The company applies expected credit loss (ECL) model for measurement and recognition of impairment loss on the following financial assets and credit risk exposure.
 - Financial assets that are debt instruments, and are measured at amortized cost wherever applicable for e.g. loans, debt securities, deposits, and bank balance.
 - Trade Receivables
- B) The company follows 'simplified approach' for recognition of impairment loss allowance on trade receivables which do not contain a significant financing component. The application of simplified approach does not require the company to track changes in credit risk. Rather, it recognizes impairment loss allowance based on lifetime ECL at each reporting date, right from its initial recognition.

ii. Non-financial Assets

The Company assesses at each reporting date whether there is any objective evidence that a non-financial asset or a group of non-financial asset is impaired. If any such indication exists, the company estimates the amount of impairment loss.

3.11 Provisions

- i. Provisions are recognized when the company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of economic benefit will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.
- ii. The amount recognized as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risk and uncertainties surrounding the obligation.
- iii. When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, the receivable is recognized as an asset, if it is virtually certain that reimbursement will be received and the amount if the receivable can be measured reliably.

3.12 Earnings per share (EPS)

- i. Basic EPS is computed by dividing the profit after tax by the weighted average number of equity shares outstanding during the year/ period.
- ii. Diluted EPS is computed by dividing the profit after tax, as adjusted for dividend, interest and other charges to expenses or income relating to the dilutive potential equity shares, by the weighted average number of equity shares considered for deriving basic EPS and the weighted average number of equity shares which could have been issued on the conversion of all dilutive potential equity shares.

3.13 Leases

A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Company as a lessee

The Company accounts for each lease component within the contract as a lease separately from non-lease components of the contract and allocates the consideration in the contract to each lease component on the basis of the relative stand-alone price of the lease component and the aggregate stand-alone price of the non-lease components.

The Company recognises right-of-use asset representing its right to use the underlying asset for the lease term at the lease commencement date. The cost of the right-of-use asset measured at inception shall comprise of the amount of the initial measurement of the lease liability adjusted for any lease payments made at or before the commencement date less any lease incentives received, plus any initial direct costs incurred and an estimate of costs to be incurred by the lessee in dismantling and removing the underlying asset or restoring the underlying asset or site on which it is located. The right-of-use assets is subsequently measured at cost less any accumulated depreciation, accumulated impairment losses, if any and adjusted for any remeasurement of the lease liability. The right-of-use assets is depreciated using the straight-line method from the commencement date over the shorter of lease term or useful life of right-of-use asset. The estimated useful lives of right-of-use assets are determined on the same basis as those of property, plant and equipment. Right-of-use assets are tested for impairment whenever there is any indication that their carrying amounts may not be recoverable. Impairment loss, if any, is recognised in the statement of profit and loss.

The Company measures the lease liability at the present value of the lease payments that are not paid at the commencement date of the lease. The lease payments are discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, the Company uses incremental borrowing rate. For leases with reasonably similar characteristics, the Company, on a lease by lease basis, may adopt either the incremental borrowing rate specific to the lease or the incremental borrowing rate for the portfolio as a whole. The lease payments shall include fixed payments, variable lease payments, residual value guarantees, exercise price of a purchase option where the Company is reasonably certain to exercise that option and payments of penalties for terminating the lease, if the lease term reflects the lessee exercising an option to terminate the lease.

The lease liability is subsequently remeasured by increasing the carrying amount to reflect interest on the lease liability, reducing the

carrying amount to reflect the lease payments made and remeasuring the carrying amount to reflect any reassessment or lease modifications or to reflect revised in-substance fixed lease payments.

The Company recognises the amount of the re-measurement of lease liability as an adjustment to the right-of-use asset. Where the carrying amount of the right-of-use asset is reduced to zero and there is a further reduction in the measurement of the lease liability, the Company recognises any remaining amount of the remeasurement in statement of profit and loss.

The Company has elected not to apply the requirements of Ind AS 116 to short-term leases of all assets that have a lease term of 12 months or less and leases for which the underlying asset is of low value. The lease payments associated with these leases are recognized as an expense on a straight-line basis over the lease term.

Company as a lessor

At the inception of the lease the Company classifies each of its leases as either an operating lease or a finance lease. The Company recognises lease payments received under operating leases as income on a straight- line basis over the lease term. In case of a finance lease, finance income is recognised over the lease term based on a pattern reflecting a constant periodic rate of return on the lessor's net investment in the lease. When the Company is an intermediate lessor it accounts for its interests in the head lease and the sub-lease separately. It assesses the lease classification of a sub-lease with reference to the right-of-use asset arising from the head lease, not with reference to the underlying asset. If a head lease is a short term lease to which the Company applies the exemption described above, then it classifies the sub-lease as an operating lease.

If an arrangement contains lease and non-lease components, the Company applies Ind AS 115 Revenue to allocate the consideration in the contract.

4.1 Changes in accounting policies and disclosures

New and amended standards

There were no new standards that impacted the financial statements of the Company and no changes to the Company's accounting policies.

4.2 Standards issued but not yet effective up to the date of Financial Statements:

Ministry of Corporate Affairs ("MCA") notifies new standard or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. On March 31, 2023, MCA amended the Companies (Indian Accounting Standards) Rules, 2015 by issuing the Companies (Indian Accounting Standards) Amendment Rules, 2023, applicable from April 1, 2023, as below:

Ind AS 1 – Presentation of Financial Statements

The amendments require companies to disclose their material accounting policies rather than their significant accounting policies. Accounting policy information, together with other information, is material when it can reasonably be expected to influence decisions of primary users of general purpose financial statements. The Company does not expect this amendment to have any significant impact on its financial statements.

Ind AS 12 – Income Taxes

The amendments clarify how companies account for deferred tax on transactions such as leases and decommissioning obligations. The amendments narrowed the scope of the recognition exemption in paragraphs 15 and 24 of Ind AS 12 (recognition exemption) so that it no longer applies to transactions that, on initial recognition, give rise to equal taxable and deductible temporary differences. The Company is evaluating the impact, if any, on its financial statements.

Ind AS 8 – Accounting Policies, Changes in Accounting Estimates and Errors

The amendments will help entities to distinguish between accounting policies and accounting estimates. The definition of a change in accounting estimates has been replaced with a definition of accounting estimates. Under the new definition, accounting estimates are "monetary amounts in financial statements that are subject to measurement uncertainty". Entities develop accounting estimates if accounting policies require items in financial statements to be measured in a way that involves measurement uncertainty. The Company does not expect this amendment to have any significant impact on its financial statements.

TIGER TIGER, BURNING BRIGHT

Define irony. The tiger, India's national animal, was almost extinct merely five decades ago. Indeed, rapid urbanization, unchecked deforestation and poaching had reduced the population of this big cat to less than 2000! But the story of the last five decades is an inspirational tale of the difference that sustained and honest government action can make.

Alarmed by the rapid fall in India's tiger population, the government under Mrs. Indira Gandhi launched Project Tiger on April 1, 1973. At that time, there were just about 1800 tigers left in India. Project Tiger was launched with the twin objectives of reducing the factors that led to depletion of tiger habitats, and to ensure a viable tiger population for economic, scientific, cultural, aesthetic and ecological values. Under the project, a number of tiger reserves were created based on a 'core-buffer' strategy. Each reserve had a core area that was free of all human activities and a buffer zone which were subjected to conservation-oriented land use. The first of these was the Jim Corbett National Park. By the late 1980s, the initial nine reserves covering an area of 9,115 square km had been increased to 15 reserves covering an area of 24,700 square km. By 1997, 23 tiger reserves encompassed an area of 33,000 square km. Today, there are 54 tiger reserves in the country. The National

Tiger Conservation Authority also began conducting a tiger census every four years.

With sustained efforts, results began to show. India's tiger population began to rise slowly, but steadily, and not without challenges. India's highest ever tiger population was estimated to be around 4,000 in the 1980s. But rampant deforestation ensured that this number fell to a low of about 1400 in 2008. But the subsequent rounds of the tiger census showed a consistent improvement in the tiger population. Modern technology was also deployed for a more accurate estimate. In 2020, the 2018 tiger census made it to the Guinness Book of World Records for being the largest camera-trapping exercise in the world.

The latest census of 2022 pegs the number of big cats at 3,167 tigers. Sure, this is a far cry from the estimated 40,000 tigers that were believed to have lived in India in 1947. At 3,167, it is estimated that India is home to 70% of the world's tiger population. That's some progress!

B Risk Exposure

Through its defined benefit plan, the Company is exposed to a number of risks, the most significant of which are detailed below:

Life expectancy:

This is particularly significant where inflationary increases result in higher sensitivity to changes in life expectancy.

Future salary increase and inflation risk:

Since price inflation and salary growth are linked economically, they are combined for disclosure purposes. Rising salaries will often result in higher future defined benefit payments resulting in a higher present value of liabilities especially unexpected salary increases provided at management's discretion may lead to uncertainties in estimating this increasing risk.

Asset-Liability mismatch risk:

Risk arises if there is a mismatch in the duration of the assets relative to the liabilities. By matching duration with the defined benefit liabilities, the Company is successfully able to neutralize valuation swings caused by interest rate movements. The Company ensures that the investment positions are managed within an asset-liability matching (ALM) framework that has been developed to achieve long-term investments that are in line with the obligations under the employee benefit plans.

II Defined Contribution Plans

iii) Sensitivity analysis

The sensitivity of defined obligation to changes in the weighted principal assumptions is:

Assumption	Impact on defined benefit obligation March 31, 2023	
	%	Rs
Discount rate		
0.50% increase	(5.80)	15.20
0.50% decrease	6.30	17.16
Future salary increase		
0.50% increase	6.00	17.11
0.50% decrease	(5.70)	15.21

Assumption	Impact on defined benefit obligation March 31, 2022		INR MILLION
	%	Rs	
Discount rate			
1.00% increase	(6.10)	13.13	
1.00% decrease	6.70	14.92	
Future salary increase			
1.00% increase	6.40	14.88	
1.00% decrease	(6.00)	13.15	

The above sensitivity analysis is based on a change in assumption while holding all other assumptions constant. In practice, this is unlikely to occur and changes in some of the assumptions may be correlated. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions the same method (present value of defined benefit obligation calculated with the Projected Unit Credit Method at the end of the reporting period) has been applied as when calculating the defined benefit liability recognised in the balance sheet. The method and types of assumptions used in preparing the sensitivity analysis did not change compared to the prior period.

The following payments are expected contributions to the defined benefit plan in future years:

Particulars	INR MILLION	
	March 31, 2023	March 31, 2022
Less than a year	1.46	0.75
Between 1- 2 years	1.22	1.92
Between 2- 5 years	2.01	1.13
Over 5 years	4.18	2.40
Total	8.88	6.20

Financial risk management

The management of the Company has implemented a risk management system that is monitored by the Board of Directors. The general conditions for compliance with the requirements for proper and future-oriented risk management within the Company are set out in the risk management principles. These principles aim at encouraging all members of staff to responsibly deal with risks as well as supporting a sustained process to improve risk awareness. The guidelines on risk management specify risk management processes, compulsory limitations, and the application of financial instruments. The risk management system aims at identifying, analyzing, managing, controlling and communicating risks promptly throughout the Company. Risk management reporting is a continuous process and part of regular Group reporting. In addition, our Corporate Function Internal Auditing regularly checks whether Company complies with risk management system requirements.

The Company is exposed to credit, liquidity and market risks (foreign currency risk and price risk) during the course of ordinary activities. The aim of risk management is to limit the risks arising from operating activities and associated financing requirements by applying selected derivative and non-derivative hedging instruments.

Credit risk

The Company is exposed to credit risk from its operating activities (primarily trade receivables) and from its financing activities, including deposits with banks and other financial instruments. The balances with banks, loans given to employees, security deposits are subject to low credit risk since the counter-party has strong capacity to meet the obligations and where the risk of default is negligible or nil. Hence, no provision has been created for expected credit loss for credit risk arising from these financial assets.

Trade receivables

Credit risk arises from the possibility that customer will not be able to settle their obligations as and when agreed. To manage this, the Company periodically assesses the financial reliability of customers, taking into account the financial condition, current economic trends, analysis of historical bad debts, ageing of accounts receivable and forward looking information.

Export related trade receivables are fully secured under the Export Credit Guarantee Corporation Scheme and therefore the Company is not exposed to significant credit risk.

The provision for expected credit loss is recognised on the basis of life-time expected credit losses (simplified approach). An expected loss rate is calculated at each year-end, based on combination of rate of default and rate of delay. The Company considers the rate of default and delay.

There is no significant expected loss recognised.

Expected credit loss:

Liquidity risk

Liquidity risk is the risk that the Company is unable to meet its existing or future obligations due to insufficient availability of cash or cash equivalents. Managing liquidity risk, and therefore allocating resources are some of the central tasks of the Company's management. In order to be able to ensure the Company's solvency and financial flexibility at all times, credit limits and cash and cash equivalents are reserved on the basis of perennial financial planning.

Market risk

Market risk is the risk that fair values or future cash flows of non-derivative or derivative financial instruments will fluctuate due to changes in risk factors. Among market risks relevant to the Company are foreign currency risk and price risks. Associated with these risks are fluctuations in income, equity and cash flow. The objective of risk management is to eliminate or limit emerging risks by taking appropriate precautions, especially by applying derivatives. The application of derivatives is subject to strict controls set up on the basis of guidelines as part of regular reporting. Various measures are used to mitigate or eliminate the risk of fluctuations in the fair value of future cash flows from financial instruments due to market changes. These mainly include foreign currency forward contracts with banks. The use of derivative financial instruments is extensively monitored, with checks being carried out on the basis of policies in the framework of regular reporting.

Foreign currency risk

The international nature of the Company's business activities generates numerous cash flows in different currencies especially in USD and EURO. To contain the risks of numerous payment flows in different currencies, in particular USD and EURO, the Company follows group wise policies for foreign currency management.

The Company does not have any material exposure to foreign currency at the balance sheet date.
